

Wolfman Basic mounting guidelines for the Small and Medium Rolie Bag to the rear of a seat.

Rolie Bag mounted correctly to rear of seat. Fig. 1

**The Small and Medium kit contains:**

- 1-Bag,
- 2-Seat Straps with loop sewn in center and 4 flappy strap keepers attached
- 1-Protective Pad (attached to back of bag). Fig 2

**\*\*\*\*Please read and understand these instructions before touching your bike, rack or wrench.\*\*\*\***

**Seat Mounting.**

1. Remove Seat or passenger section of seat. Make sure the underside or Pan is clean, free of dirt and grease for best results. Consult your owners/shop manual for this procedure.
2. Turn seat over, place the straps on the underside of the seat pan, make the width of the straps the same as on the Buckle patch on the bag. \*If your seat has mounting tabs, place straps on either side. Fig. 3 & 4

Fig. 3

Fig. 4

3. Peel and stick the Hook strips to the Pan of the seat. Press firmly for best results. Trim if needed.
4. Place loop of seat strap on the Hook. Fig. 3
5. Replace seat.
6. Place bag on seat with handle loop facing rear of bike. Thread straps through buckles on Buckle patch and tighten Snug.

For Best Results use the Ratchet Method of Tightening webbing.

Most of us just grab and pull webbing to tighten it. Well there is an easier way.

1. Pull Up on the loose end of webbing lifting the buckle while pushing on the webbing before the buckle.

Fig.1

Fig.1

Fig.2

2. Bring the loose end down tightening as you go. Fig.2
3. Do this until the bag is very snug.
4. Put the loose ends of the webbing through the Flappy Strap Keepers.
5. When you are done your bag should look like Fig. 1.
