

## **How to care for waxed cotton**

### **How to re-wax waxed cotton**

All you will require a pan of hot water and a soft cloth or sponge:

- Brush off any dirt or grit
- Sponge down with cold water
- Choose a warm room or outside on a hot day
- Stand the tin of wax in hot water to soften the dressing
- Work the dressing well into the garment using the cloth or sponge
- Pay attention to seams, creases and dry patches
- Rub in well, don't paint it on
- Do not use excess dressing
- For a "factory" finish, blow evenly with a hairdryer
- Hang the garment overnight in a warm place
