

Are you ready to connect with the highest power on earth?

Many people live their lives on the surface, not knowing the one truth that could give them all the good they could ever dream of wanting. The greatest discovery of all time—that the divine lives within each of us and we can all learn how to access it—is supported by scientific understanding of the brain.

As you learn the 15 Universal Spiritual Truths found in newly discovered gospels your view of God will evolve as it would have 2,000 years ago if the manuscripts had not be buried. Maybe we are just now ready to believe the truth about our own power. By activating your Divine Intelligence you will begin to integrate the human with the divine and embrace the highest power on earth—the God within yourself.

"Having established an elaborate historical context, Jayne gracefully reminds us, through vivid personal and professional vignettes, of the ultimate truth – that fulfillment is within and awaits our arrival."

"Dr. Gardner does a wonderful job of guiding the reader to discover their internal God. Although readers may not be going through exactly the same situation as the client she describes in the book, there are aspects of his journey that anyone can relate to and find meaningful to situations in their life. As a coach, I find this process useful for my clients seeking to find meaning in their lives."

This book is the result of Dr. Gardner's extensive experience, vast fund of knowledge and wisdom, and is a gift that will serve as a spiritual guide for seekers of God within us and help us discover the true meaning of life."
