Local Backup
Data Sheet

The cloud backup advantage

Simple

Seamlessly manage backup, sync, and mobile access for multi-user and server environments from a single web-based console.

Secure

Your data is safe with military-grade encryption, world-class data centers, and EMC—a company built to last.

Affordable

Keep costs low with no hardware to purchase and minimal overhead required.

The best of both worlds

Our backup service delivers the convenience and speed of local backup with the offsite protection of online backup.

A complete backup strategy

A sound backup strategy involves both a local and an offsite copy of your data. Our service delivers both for Windows users at no additional cost.

Double protection

Our backup service automatically backs up files locally to an external drive in addition to an offsite data center for double protection of your critical business information.

Faster backups

With local backup, you'll be able to back up large amounts of data quickly—usually within minutes—ensuring your files are backed up locally while they transfer to our servers.
