ingredients

TOOLS YOU'LL NEED

- dry erase poster board (joann.com)
- dry erase markers
- foamcore
- paint stirrers – *or* – wooden dowels
- quick-dry glue
- permanent marker (black Sharpie, king size)

- hot glue gun & glue
- wooden skewers
- construction paper
- xacto knife
- cutting mat
- scissors

GET CREATIVE WITH

- decorative papers
- props
- back drops

step-by-step

speech bubbles

STEP #1

Smear the back of dry erase poster board with quick-dry glue and adhere it to foamcore.

STEP #2

On the foamcore side, draw the speech bubble shape. Here's some inspiration:

STEP #3

Using an xacto knife with a fresh blade, cut out the speech bubble.*

STEP #4

Using a Sharpie, draw a line* on the dry erase side around the perimeter of the speech bubble.

STEP #5

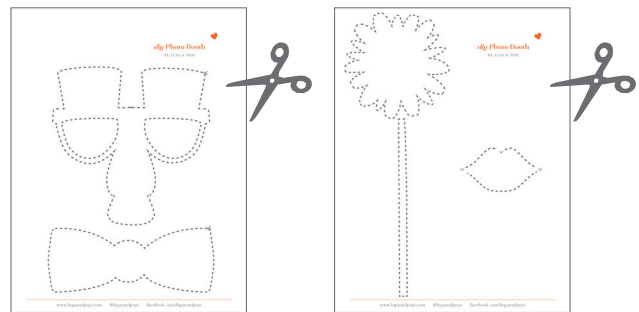

Use hot glue to adhere a paint stirrer/wooden dowel centered on the back of the speech bubble.

**Don't worry about having a steady hand. Be a little messy to make it look more like a "comic strip"!*

paper props

STEP #1

Cut out the props (pages 2 & 3 of this PDF).

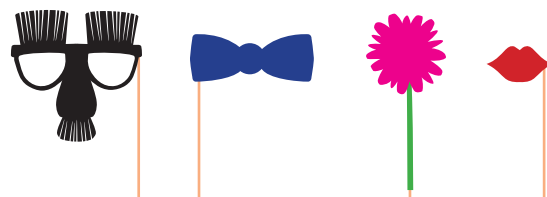

STEP #2

Trace them onto the colored construction and/or decorative paper & cut out the shapes.

NOTE: TEMPLATES CAN BE PRINTED DIRECTLY ON DECORATIVE PAPER TO OMIT THIS STEP.

STEP #3

Hot glue a wooden skewer to a strategic place on the left or right of the back of the prop & you are ready for some fun photos!

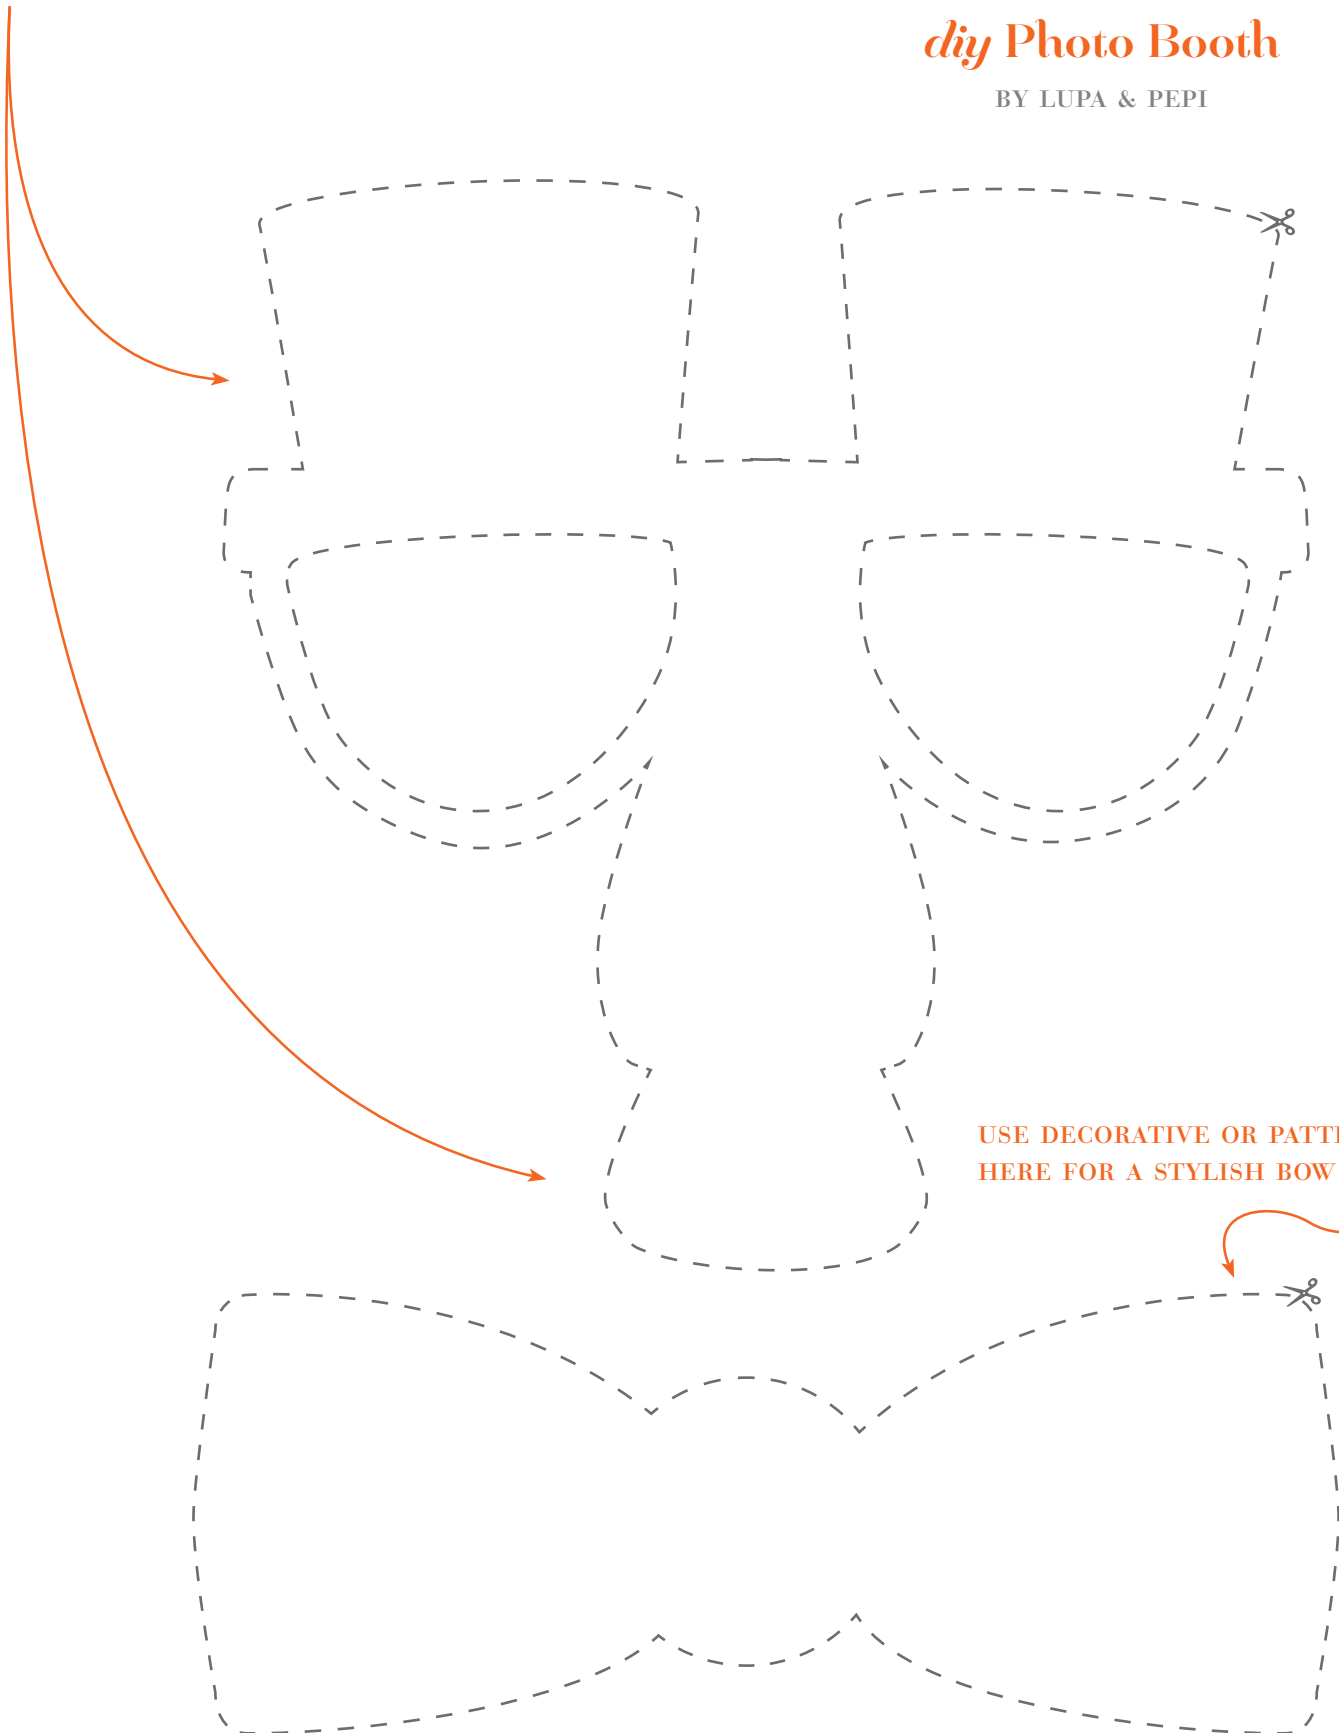

USE SCISSORS TO FRINGE THE EYEBROWS & MOUSTACHE
TO GIVE THEM MORE DIMENSION.
