Product Specifications

S1046

4-Point Grounding Block for Workbenches

The S1046 is a space-saving grounding block designed to provide direct path to the ground in ESD Benches & Workstations for up to 4-Operator and end user/users.

Features:

- Can easily be installed/mounted at the desired location of workbench, ideally, beneath the workstations/benches, using screws.
- A 15' long straight cord provides a connecting means to the ground.
- With it's no built-in resistor construction, this product provides a direct path to the ground.
- End Termination options: # 10 Ring Terminal; or Banana Plug.

Part Numbers:

S1046RT
S1046BP

Cord with #10 Ring Termination.
Cord with Banana Plug Termination.
