3 = High

### INSTRUCTIONS FOR USE

#### About your Hair Conditioning Cap

The cap is perfect for professional conditioning treatments without having the drying effect of hair dryers. It can soften the hair as well as making it more manageable helping to restore hair damage caused by relaxing and styling abuse.

This cap is especially effective when used with A.P.H products like Olive Oil Steaming Conditioner.

#### To Condition Your hair.

- Apply an apple amount of conditioner to your hair. (Your hair can be slightly damp or dry)
- Cover your hair with a plastic shower cap this is to help keep the Heat Cap clean. (Plastic cap sold separately)
- Fasten chin strap by pressing the chin strap button and pushing the button toward your chin.
- Plug in the Heat Cap( Make sure your hands are completely dry before plugging or unplugging the Heat Cap.
- Adjust the control switch to the desired temperature.
- Leave the cap in place for 10-30 minutes. (Leaving the cap on for longer than 30 minutes is not recommended.
- Once you have finished your treatment remove from your head.
- Unplug the cap.
- Wash and style hair as desired.

#### Cleaning

Unplug the Heat Cap and allow it to cool before attempting to clean it. **NEVER IMMERSE THE HEAT CAP IN WATER OR ANY OTHER LIQUID.**

Use a soft slightly damp cloth to wipe any part of the cap that needs cleaning.

#### Storing your cap

- \* Always allow your cap to cool before storing it.
- \* Never store your cap while plugged in.
- \* Never wrap cord tightly around the cap.
- \* Never fold or crush the cap when storing it.
- \* Never hang the cap by its power cord.
