

Sights, Rails
& Accessories
for M4/AR15

DIAMONDHEAD®

ADVANCED COMBAT SOLUTIONS™

2014

DIAMONDHEAD USA, INC.

INTRODUCTION - Diamondhead USA, is a West Springfield, Massachusetts company. We are nationally known and respected as a leading design innovator, manufacturer and distributor of top quality accessories for the Tactical Weapons industry. Diamondhead specializes in the M4/AR15 platform and any firearm that uses the M1913 Picatinny Rail system. The original Diamond Sights with the patented Diamond-shaped Apertures and Diamond-shaped upper housings - that launched the company - have now grown to over a hundred products. We offer a Lifetime Warranty on everything we manufacture.

DISTRIBUTION - Diamondhead USA provides products to over a dozen OEM companies who offer our sights and rails as standard equipment. For example, STAG Arms chooses Diamondhead sights and handguards for their number one selling STAG Model 3 rifle and their Model 8 rifle. Windham Weaponry fits our sights and rails exclusively on their premier models. The growing list of companies that use our products includes many of the country's leading AR15 manufacturers. In addition to these OEM's, we are strongly affiliated with professionals in Government, Military and Law Enforcement such as the Connecticut State Police SWAT division, the California Dept. of Fish & Game and numerous others.

Diamondhead products are distributed to retailers in the USA and internationally through the nation's major firearms' distributors. We have demonstrated our products at major international arms shows such as the D.S.E.I. Expo in London and I.W.A. in Germany.

MARKETING / PR - Diamondhead sights and rail systems are invariably chosen by the nation's top editors and photographers when they review a new firearm. We advertise regularly in the primary news-stand magazines and numerous on-line websites and our rapidly growing fan base is unanimous in its praise for our products. We recently posted a professionally shot video on our website, Facebook and YouTube sites, featuring members of the United States Special Forces using Diamondhead products.

INNOVATIONS - New this year are two industry firsts, both incorporating the renowned Diamond Integrated Sighting System. The D-45 (45 degree off-set) Swing Sights are the first and only sights that can stow flat yet be deployed and used in conjunction with an optic for CQC/CQB target acquisition. The operator simply rolls the weapon 45 degrees counter clockwise and switches sighting from optic to D-45's. Our new Polymer Diamond Front & Rear Flip-Up Sights are creating a strong reaction in the retail sector - especially as they include NiteBrite photoluminescent inserts - an inexpensive way to have a Tritium-type (reduced-light) sighting system. The Polymer Diamond Sights are extremely high quality and very competitively priced. Watch for more new and innovative products in 2014. Check out our website at www.Diamondhead-USA.com or our Facebook and Youtube sites.

MISSION - Diamondhead USA is dedicated to offer the most innovative, reliable and cost effective products and support them with exemplary, industry-leading customer service.

INTEGRATED SIGHTING SYSTEMS™ (I.S.S.)

Diamondhead's DIAMOND™ Combat Sights, the D-45™, MICRO-D™, and Gas Block Sights are an innovative design for M4/AR15 variants. When paired together, they create the Diamondhead Integrated Sighting System™ (I.S.S.). By incorporating the Rear Sight's original, patented Diamond-shaped Apertures & Diamond-shaped Upper Housing with the Front Sight's proprietary, patented Diamond-shaped Upper Housing, the eye can place the front sight post perfectly in the center of the rear aperture. The result - "Faster Target Acquisition and Centering". Diamondhead's I.S.S. has received critical acclaim from industry writers as well as Military and Law Enforcement professionals, many of whom prefer to use the Diamondhead I.S.S. as their primary sighting system.

“It is far more important to be able to hit the target than it is to haggle over who makes a weapon or who pulls a trigger”

- President Dwight D. Eisenhower

DIAMOND SIGHTS™

Diamondhead's flagship DIAMOND Flip-Up Front and Rear Sight's revolutionary design incorporate the Original and patented Diamond-shaped Apertures™ and Housing - allowing the eye to place the front sight post in the exact center of the rear aperture... faster and with greater precision. The Rear Sight's Diamond-shaped Upper Housing™ (Pat.) enables fast CQC target acquisition with the apertures flat. Diamond sights are compatible with all Diamondhead VRS™ Free-Floating & Drop-In Handguard Systems

FRONT SIGHT available with Tritium insert

1057 Black
1058 FDE

1051 - Diamond Front Sight (BK)
1052 - Diamond Front Sight (FDE)

FEATURES OF DIAMOND FRONT SIGHT

- Patented Diamond-shaped Upper Housing frames & centers the target with speed & ease
- Secure and accurate elevation adjustment

UNIVERSAL M4 SIGHT TOOL (for all Sights)

- Adjusts rear sight windage and front sight elevation on all A2 and A4 front sights

FLAT DARK EARTH OPTION

1198 (FDE)

Front & Rear Diamond Sights and Micro-D Integrated Sighting Systems are also available in Flat Dark Earth

“The Original, Patented DIAMOND Sighting System”

1199
Diamond I.S.S. (BK)

1101 - Diamond Rear Sight (BK)
1102 - Diamond Rear Sight (FDE)

FEATURES OF DIAMOND REAR SIGHT

- Patented Diamond-shaped Apertures for faster target acquisition & centering
- Patented Diamond-shaped Upper Housing with horizon bars. (Unique design enables accurate CQC aiming with apertures flat)
- Dual same plane short and long range apertures (at exact same height of factory A2 sights)
- Deploys and stows with small or large aperture active

“The innovative Diamond-shaped upper housing (Pat.) enables fast CQC sighting with the apertures flat”

FEATURES OF DIAMONDHEAD FRONT & REAR COMBAT SIGHTS (Diamond, Micro-D, Auto-Ranger, Gas Block, Hybrid, Classic, and D-45)

- Flips up quickly and smoothly for rapid deployment
- Folds down fast with the push of a button
- Proprietary deployment system ensures sight stays up securely & remains zeroed in combat situations
- Diamondhead® Flip-Up Front & Rear Diamond, D-45, Gas Block, Micro-D, and Polymer sights are designed to work together to create the Diamondhead® Integrated Sighting System™
- Mil. Spec. Type III hard coat anodized 6061 T6 aircraft aluminum, finished in Black or Flat Dark Earth (FDE)*
- Easy installation with proprietary clamping system, providing secure attachment to all Mil. Std. 1913 Picatinny Rails
- Combat Durable

STAG ARMS Model 3

STAG Arms Model 3 with VRS-DI Modular Drop-In Handguard and (AR15) Gas Block Integrated Sighting System (1599)

AUTO-RANGER™ FRONT SIGHT

Diamondhead's Patented Flip-Up Front AUTO-RANGER™ Front Sight is the first iron sight to offer automatic estimation of man-sized targets and quick-ranging, calibrating and dead-on accuracy to 600yds. Simply rotate through the front sight post selections until the post that matches the size of the target is found. The AUTO-RANGER™ offers the proprietary (Pat.) Diamondhead Auto-Ranging-Bullet Drop Compensating (AR-BDC™) front sight system (that adjusts for bullet drop for M4 5.56 ballistics) for reliable short & long-range accuracy.

FEATURES OF AUTO-RANGER™ FRONT SIGHT (Pat.)

- 600 yard Auto-Ranging Bullet Drop Compensating (AR-BDC™) front sight system
- Automatically estimates distances of man-sized targets and adjusts for bullet drop for M4 5.56 ballistics to 600 yards
- AR-BDC™ System allows for reliable short & long range accuracy
- Simple to operate... turn the calibrated knob and shoot
- See Diamond Sights (Page 7) for standard features

GAS BLOCK FRONT SIGHTS

Diamondhead's Gas Block Front Sight for the STAG Arms Model 3 & AR15 mounts directly to the existing drilled (reduced height) gas block. The gas block sight comprises a proprietary Diamondhead sight base (of increased height to compensate for lower gas block) and the patented Diamond-shaped upper housing. Also available with extra high base for AR10 variants.

“Increased Height”

1651 Gas Block Sight for AR10/.308

FEATURES OF GAS BLOCK FRONT SIGHTS:

- Mounts directly to a railed, reduced height gas block, providing secure and solid sight attachment to barrel
- Allows for sight stability, eliminates potential handguard movement and holds a true zero
- Taller sight to compensate for (below receiver height) gas block
- STAG Arms Model 3/AR15/M4 & AR10/.308 gas block options
- See Diamond Sights (Page 7) for standard features & Sight Tool

HYBRID AND CLASSIC SIGHTS

Diamondhead is best known for its revolutionary, patented, Diamond-shaped apertures (Pat. & Pat. Pend.) and Upper housings and the related Integrated Sighting System. The Classic line of sights acknowledges the need to offer the traditional round apertures with a choice of HK and M4 front sight profiles, while the Hybrid sights' unique design give the option to use both Diamond-sighting as well as round-aperture sighting. The Hybrid and Classic Rear Combat Sights are now offered with the patented Diamond-shaped Upper Housing

HYBRID FRONT SIGHT™

The **HYBRID Front Sight** incorporates a round inner profile with the proprietary Diamond-shaped outer upper housing

“The Best of Both Worlds!”

HYBRID REAR SIGHT™

The **HYBRID Rear Sight** incorporates a traditional round aperture (for fast CQC) with the proprietary diamond-shaped aperture and re-styled Diamond-shaped upper housing (for accurate long range)

D-45 SWING SIGHTS

D-45™ 45° Off-Set Swing Sights

Diamondhead's revolutionary **D-45 Integrated Sighting System™** takes sighting to a new level. If a fast, accurate CQC target acquisition is needed or the optic goes down, simply flip out the D-45 Sights and roll the firearm 45 degrees counter-clockwise. The D-45 Rear Sight's patented Diamond-shaped apertures™ and Diamond-shaped upper housing allow the eye to place the D-45 Front Sight's post in the exact center of the Rear Sight's aperture. The spring-loaded D-45 deploys with the push of a button and stows flat.

"Stows like a folding sight"

FEATURES

- Stows like a Folding Sight
- For CQC or if Optic Fails
- Optics Compatible
- Lightning-Fast Deployment to 45 Degrees
- Rear Sight's Diamond-shaped upper housing enables fast CQC with apertures flat
- True Bore Alignment
- No Snag Hazard
- See Diamond Sights (Page 7) for standard features

- President Ronald Reagan

POLYMER SIGHTS

Introducing... **POLYMER**
Flip-Up **Diamond Sights** Pat. Pend.

Diamondhead’s Polymer (Flip-Up) Diamond Sights are designed for all AR-15’s and Modern Sporting Rifles. The Polymer sights are fitted with **NiteBrite™** photoluminescent inserts (*the inexpensive alternative to Tritium*)

MAIN FEATURES (Front & Rear Sights):

- Advanced Polymer / Composite construction for strength, light weight and exceptional durability
- **NiteBrite™** - Photoluminescent Inserts - can be charged by natural light or with a flashlight
- Spring-loaded sight flips up quickly with the push of a button, stays up securely and folds down flat

“Pair with any Front Sight*”

POLYMER Diamond FRONT SIGHT™

The **Polymer (Flip-Up) Diamond Front Sight** features the patented Diamond-shaped upper housing. It can be paired with the Polymer Diamond Rear Sight and is suitable for firearms fitted with a Diamondhead VRS handguard or any M1913 Picatinny Rail System

NOT SUITABLE FOR GAS BLOCK SIGHT BASES
(due to heat issues)

FEATURES:

- Patented Diamond-shaped Upper Housing™ for fast alignment with the Polymer Diamond Rear Sight
- Easy Elevation adjustment (with no tools)

For AR15 & all Modern Sporting Rifles

LIFETIME WARRANTY

INTEGRATED SIGHTING SYSTEM EQUIPPED

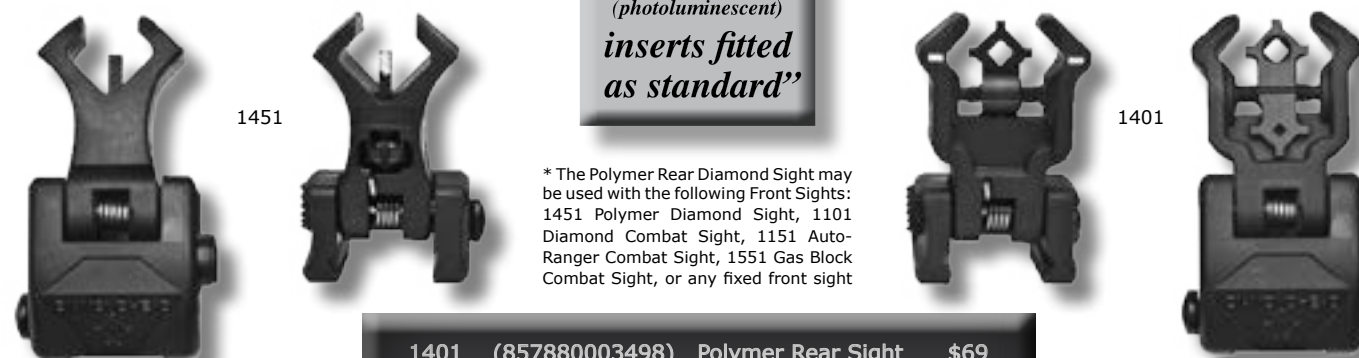

POLYMER Diamond REAR SIGHT™

The **Polymer (Flip-Up) Diamond Rear Sight** incorporates the patented Diamond-shaped Apertures™ & Diamond-shaped upper housing - for faster target acquisition & centering. It is suitable for firearms fitted with a factory handguard and a fixed front sight, or can be paired with any Picatinny rail-mounted front sight*

FEATURES:

- Patented Diamond-shaped Apertures & Upper Housing for fast alignment with any Diamondhead Front Sight*
- Dual same plane long and short range apertures (at exact same height as factory A2 sights)
- Defaults to either small or large aperture
- Secure and accurate 0.5MOA windage adjustment

“NiteBrite™ (photoluminescent) inserts fitted as standard”

* The Polymer Rear Diamond Sight may be used with the following Front Sights: 1451 Polymer Diamond Sight, 1101 Diamond Combat Sight, 1151 Auto-Ranger Combat Sight, 1551 Gas Block Combat Sight, or any fixed front sight

1401	(857880003498)	Polymer Rear Sight	\$69
1451	(857880003504)	Polymer Front Sight	\$49

D-45 SWING SIGHTS

VRS™ T & VRS™ X FREE-FLOATING HANDGUARDS

Diamondhead's innovative VRS™ T & VRS™ X Free Floating Handguards offer an uninterrupted rail extension and handguard in perfect alignment with the host weapon's flat top receiver. VRS™ handguards replace the factory delta ring and barrel nut. The VRS™ Free Floating Handguard System provides the same flexibility of use as Diamondhead's renowned VRS™ Drop-In System. Simply attach rails and bumpers to the VRS™ for the required rail-mounted accessories.

"Factory Installed Appearance"

VRS™ T & X Available in 10.25" 13.5" & 15.0" * Lengths

INCLUDED

Replacement Barrel Nut

FEATURES - VRS T & X HANDGUARDS:

- Designed to give a factory installed appearance to the rifle
- Requires removal of both delta ring and factory barrel nut and replacement of front sight with a low profile gas block*
- Proprietary replacement barrel nut included that allows for easy installation and elimination of barrel nut timing issues
- Mounts on barrels with low profile gas block, or can replace fixed front sight (using basic punch, hammer) with a low profile gas block*

STANDARD FEATURES - VRS T & X and VRS TD & XD (Page 21)

- Sturdy, lightweight free float design
- Improves accuracy and provides exceptional airflow to keep barrel cooler
- Comfortable rounded triangular shape (T & TD) and round shape (X & XD)
- Flush mounted top rail for a monolithic appearance
- Lightning fast configuration changes
- Uninterrupted mounting surface for optics or other accessories
- Improves comfort and ease of shooting while allowing for personal modification with rail accessories (rails & bumpers)
- Customize for specific applications
- Add more rails as additional accessories are needed
- Mix full length and short rails and bumpers to suit
- Proprietary clamping system for rigid, secure attachment
- Mil. Spec. Type III anodized 6061 aluminum construction
- Mil. Std. 1913 Picatinny rail dimensions
- Fits all M4/AR15/M16 variants
- Combat durable

- Combat durable

Free-Floating Handguard for the KRISS Vector CRB .45ACP

7381 (857880003580) KRISS Vector CRB .45 Handguard \$179

UPPER RECEIVERS

Diamondhead's Custom Shop offers a wide choice of AR15/M4 Upper Receivers. The individually-built receivers are based on the STAG Arms M4 upper (16" barrel) and the 3-Gun upper (18" barrel). The M4 base can be equipped with a choice of VRS™ T or VRS™ X handguard in 10.25", 13.5" (& 15.0" X only) lengths. The 18" barrel of the 3-Gun base accepts the 15" VRS™ T or VRS™ X handguard. A pair of Diamond Sights or D-45 (optics-compatible) Swing Sights is offered. All Receivers come in Pre-Ban or Compliant (for MA, CT, NY, & NJ)

GAS BLOCKS & ACCESSORIES

Diamondhead's Railed Gas Block replaces an existing fixed front sight and allows for the fast installation of the VRS™ Drop-In Rail System. The railed gas block allows for the secure installation of a folding front sight. The Diamondhead railed gas block installs quickly with two fastening screws. It is precision bored to .750" diameter and manufactured from Parkerized steel. The Low Profile Gas Block is needed when installing the VRS™ Free-Floating Handguard.

3101

RECEIVER HEIGHT GAS BLOCK

(with Rail Overhang)

for VRS™ DI (Drop-In) Rail Systems

FEATURES:

- Replaces existing front sight/gas block and allows for the mounting of the Diamondhead VRS™ Drop-In Rail System
- Proprietary over-hang rail design allows for gas block to fit flush up to the Drop-In rail... leaving a smooth, monolithic appearance
- Works with all standard Drop-In rail systems of all lengths
- Gas Block Rail provides a secure mounting platform for standard-height folding front sights (e.g. Diamond Front Sight)
- Clamps to barrel with two fastening screws
- Precision machined to .750" bore diameter
- Manufactured from Parkerized steel
