

Quicksilver

High Density Shelf Files

Moving Aisle

Space is always at a premium.

By eliminating non productive space, QUICKSILVER provides up to 100% more capacity than conventional systems.

Flexible, QUICKSILVER can accommodate any size shelving or cabinets, and then be made to fit any size room.

Designed to be expanded or relocated quickly and easily, QUICKSILVER is ideal for any storage application.

Lateral

Save Money. Save Space.

→ Set up

Installation is 1/3 less than standard systems

→ Flexibility

Quicksilver can be made to fit any size shelving or cabinets

→ Expansion

Expand quickly and easily without cumbersome unloading and dismantling

→ Relocation

Floor modifications are unnecessary, so relocate as needed

→ Maintenance

Quicksilver is engineered for light duty applications but can withstand heavy duty use

→ Shipping

Modular construction and lightweight materials reduce freight costs and delivery times

→ Applications

Filing Systems, Health Care, Retail, Schools, Law Firms, Accounting Firms, Libraries, Museums, Automotive, Light Industrial... Every Quicksilver system is custom tailored for your use.

Designed to fit your needs.

Aesthetics

A selection of steel paint colours, end panel finishes, and hardware options compliment any existing décor.

Installation

Aesthetics, Safety, ADA requirements, seismic applications, expansion and relocation. These are some of the many considerations when deciding how to install your system. Our knowledgeable dealers are more than willing to help.
