

# Mini Storage Aisle - MSA

MANUAL ASSIST STORAGE SYSTEMS

MSA Mini Storage Aisle

The Mini Storage Aisle (MSA) is a mobile front-to-back system available with fixed, single and double width carriages allowing access from either side. The system offers security without cumbersome doors!

- ▶ **Easy to Assemble**
- ▶ **Versatile**  
Available with both Spacefile ThinLine and LT shelving
- ▶ **Adaptable**  
Suitable for many different storage applications
- ▶ **Safety First**  
Multiple Safety features that provide safe and reliable operation for years

# Spacefile is the best choice for your high density storage needs

Designed with anti-tip and anti-drift features, these sleek systems are safely designed for high traffic and heavy usage. Mini Storage Aisle systems are available with lockable carriages for complete security (PIPEDA & HIPAA compliant).

## Modular

MSA systems come complete with modular fully finished self-leveling track and decking, allowing easy assembly on virtually any floor. The MSA is not anchored to the floor and can be installed over carpet, tile, terrazzo and many other surfaces. No grouting is required. Assemblies include leveling legs and anti-tip track.

## Easy to assemble

Components are delivered unassembled, and require no special tools for assembly.

## Versatile

Spacefile Mini Storage Aisles (MSA) can be used with either Spacefile ThinLine or Spacefile LT Shelving

## Fit and Finish

MSA systems have a smooth finish with no sharp edges. All exposed metal parts are finished with black textured powder paint, on all surfaces. Powder paint coatings provide a durable hard finish with superior performance qualities. It has excellent abrasion, impact, corrosion, stain, and chemical resistance. Powder coating is environmentally safe, producing no volatile emissions or hazardous waste during the application process.

## Custom End Panels

The MSA system will complement the interior design and decor of your space. End panels provide an excellent back drop in a high traffic area. Visit custom end panels on our website to view the variety of finishes available.

Pull out drawers, Flip down, or Tambour doors can be

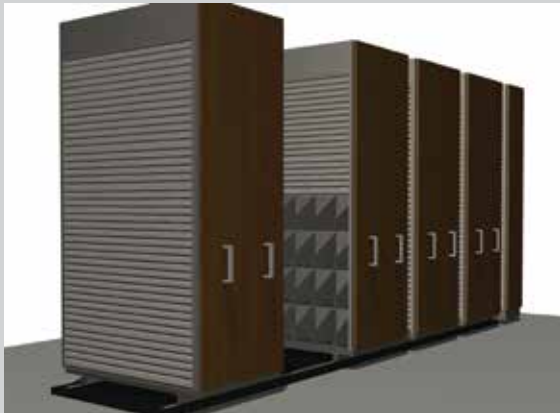

installed on the MSA system.

A waist high lock can be used with a single carriage to lock the entire system.

MSA is available through the Spacefile Quickship program. Learn more [www.spacefile.com/quickship.html](http://www.spacefile.com/quickship.html)
