

Roll-Away II & III

SPACEFILE'S SMART HIGH DENSITY STORAGE SYSTEM

Spacefile Roll-Away III Systems

Spacefile's Roll-Away II and Roll-Away III are popular systems because of the large amount of storage capacity in a small foot print, the high quality and the economical price point. Roll-Away II's and Roll-Away III's are available with any of Spacefile's shelving products.

ROLL-AWAY

FEATURES:

- ▶ **Easy to Assemble**
- ▶ **Versatile**
Available with both Spacefile ThinLine and LT shelving
- ▶ **Adaptable**
Suitable for many different storage applications
- ▶ **Safety First**
Multiple Safety features that provide safe and reliable operation for years

Spacefile is the best choice for your high density storage needs

Roll-Away II systems have two rows of deep shelving with a rear stationary row and a front row that slides along a mechanical track. This allows you to double your storage capacity. Roll-Away III systems have three rows of deep shelving with a rear stationary row. The middle and front rows move laterally from side to side, giving you three times your original storage space.

No Aisle Access Required

Roll-Away II's and Roll-Away III's remove the need for an entrance or aisle access. The mobile system is on a mechanical track that allows you to laterally slide the front cabinet(s) aside to access the second or third row.

Self Leveling Floating Floor

The Roll-Away II and Roll-Away III systems sit on a self-leveling floating floor. Our floating floor can be assembled on any surface and no grouting is required, which means no structural damage is incurred. The tiers easily slide along the track and assemblies include leveling legs and anti-tip track. A corrected and level floor ensures safety for anyone accessing this system.

Modularity

The Roll-Away II and Roll-Away III systems come in 24", 30", 36", 42" and 48" widths and can be expanded indefinitely

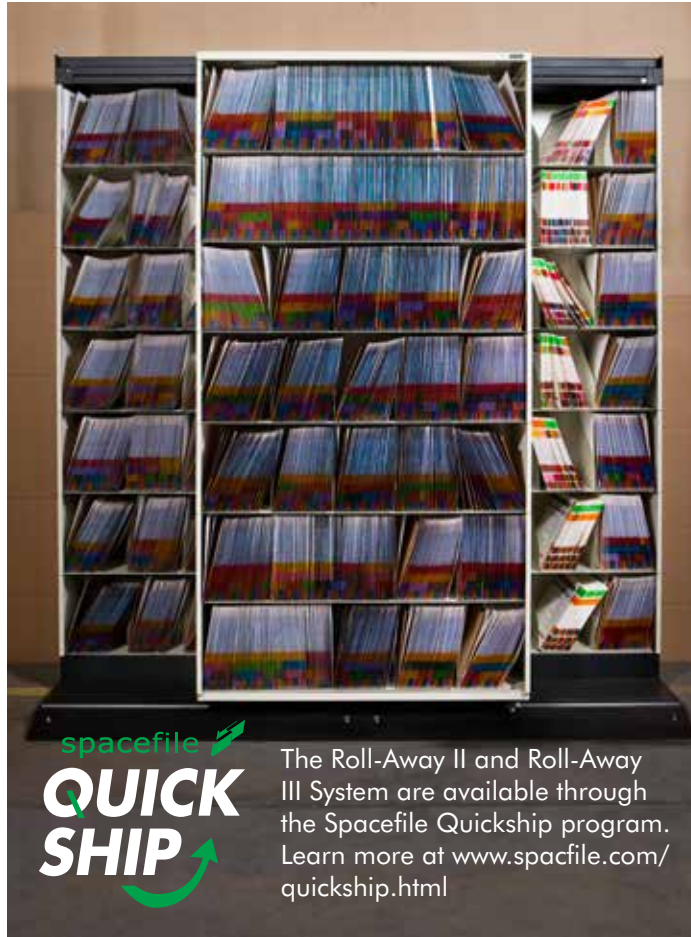

Color Selection

There are 12 standard paint color selections to choose from and many choices for custom end panels to complement your organization's décor.

Shelving and Accessories

Roll-Away II's and Roll-Away III's are available with either Spacefile ThinLine or Spacefile LT shelving. Custom sizes are available. Roll-Away II's and Roll-Away III's can accommodate Letter/Legal Files, Binders, X-Ray, DVD, Archive Boxes or simply general storage applications. Anti-Tip devices are built into every system that Spacefile manufactures. Third party shelving products can also be mounted on Spacefile's Roll-Away II's and Roll-Away III's.

A number of accessories can also be used with Roll-Away II and Roll-Away III's. These include Tambour Doors, Flip Down Doors, Waist High Locks, Pull Out Lateral Drawers, Journal Shelves and Reference Shelves

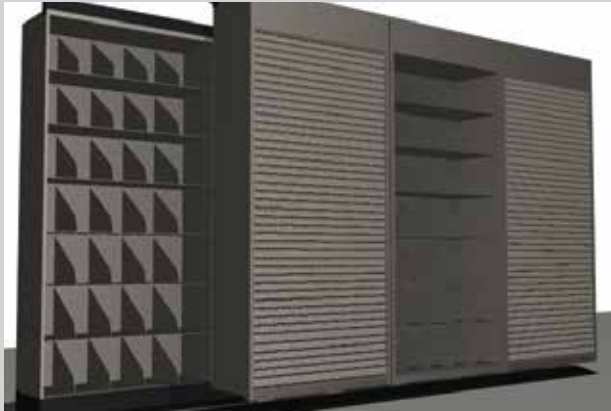

Quick Ship Program

These storage systems come ready to go and are available on our "Quick Ship Program". Contact us to discuss your storage requirements and a customized space saving strategy.
