FLOORING & CABINETS

If you're looking for a great place to get started when customizing your BreatheSmart around your home, look no further than your flooring and cabinetry. The simple option of matching either flooring or cabinets is always a solid choice, delivering the unified canvas that settles the eye and lets you control what other pieces you want to stand out.

If matching is not your design preference, you can build a beautiful tone palette by introducing a woodgrain in contrast to your hardwood or laminate flooring. If you have darker floors and cabinets, experiment with a pop of maple or weathered grey to provide depth to a room. Add a third tone in a bench or plant stand, and you have the foundation of a look that is warm and rustic.

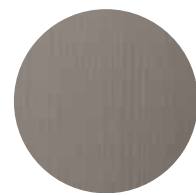

COOL COLLECTION

Graphite

Weathered Gray

Brushed Stainless

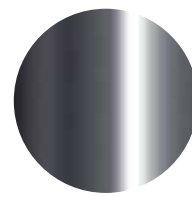

Graphite
\$59.00

Contemporary &
Textured: crisp,
