

# 1500VA UPS

## UPS1TW1500

### TECHNICAL SPECS

- 1500vA tower UPS with Simulated Sine Wave Output with 10 Outlets
- Boost AVR automatically adjusts for under-voltage ensuring stable power and longer life batteries
- Energy efficient design

**EAN**  
662919095241

**Outlets**  
10 (5 battery backup + 5 surge only)

**Surge Protection**  
316 Joules

**Noise Level**  
Less than 40dB

**Backup Runtime**  
11 minute half load, 3 minute full load

**Recharge Time**  
8 Hours to recover to 90% capacity

**Load Capacity (Watts)**  
900W

**Transfer Time**  
6 ms (max 10ms)

**Waveform Type**  
Simulated Sine Wave

### DESCRIPTION

The 1500VA Tower UPS from V7 provides a backup power source for computers, laptops and other powered peripherals. It ensures a consistent flow of electricity to help prevent equipment failure and data loss during power failures, brownouts, or other power issues that can occur with power in your building. The tower design features a quick-access front panel that makes replacing batteries easy, plus its energy efficient. Additionally, it features Auto Voltage Regulation (AVR) to ensure a stable flow of power and a longer life for internal batteries, and it features Audio and visual alarms to keep you aware of status.
