Packing List: 1x light bar, 1x screw package, 1x manual, 1x T-cable

Dimensions: Length * Width * Height 64 * 9 * 7mm

INSTALLATION

Connect the 3-pin plug to the receiver: Yellow "signal"; Red "+"; Brown "-"

Note: For L bracket installation, O rings must be added on both sides.

CONTROL: MODE 1

Use 3-channel control. Note: "Three channel" is any available channel other than CH1 and CH2. The corresponding channel is set to trigger mode, jog the switch, and short press once to switch a mode. The corresponding channel is set to flip mode, short press the button once, and press it again within 3 seconds to switch a mode.

CONTROL: MODE 2

Use Y-cable to connect to CH1, and use steering to control the light mode switch. In the CH1 steering channel, turn from full center to slight right 3 consecutive times, light mode will be switched every 3 times (interval should not exceed 1.5 seconds).
