

FIND YOUR RING SIZE

To find your ring size, choose a ring which fits the same finger and the same hand on which you intend to wear your new ring. Place this ring on the circles below in order to determine the correct ring size. The diameter of the circle below should match exactly with the diameter of the interior of your ring. If your ring is between two sizes, select the larger size.

When printing this page, to ensure the ring sizing is printed to scale, please make sure you select "No Scaling" under the "Scale to Paper Size" option of your print menu. If printed properly, the below should measure 1 inch when using a ruler as a unit of measurement.

1 inch
