

Is 2022 the Year for Heart Attacks and Strokes?

wellness with warren
sponsored by xtend-life

The data is frightening!

40% increase in all-cause mortality in the last half of 2021. Much of it from heart attacks and strokes!

2022 is looking even worse.

What are the options?

Warren Matthews, the founder of Xtend-Life, gives his take on it in this short video.
