to eliminate
algae & diesel
bug

SUPER DIESEL PREMIUM BLUE is the most cost effective technology available to improve combustion efficiency, reduce emissions, reduce fuel usage, increase power, reduce engine noise, clean fuel systems, reduce wear, improve fuel quality and storage stability.

SUPER DIESEL PREMIUM BLUE has been developed in partnership with HFT (Hybrid Fuel Technology) using eight technologies: Cetane Improver, Injector Cleaner, Surfactant, Lubricant, Anti Oxidant Stabiliser, Flocculent (demulsifier), Algaecide / Biocide and an Anti Foaming Agent.
