# Innovative's Story

For over a decade, Innovative Mounts has created hundreds of performance engine mount kits for many of the world's most popular cars. Our experience in manufacturing, passion for Motorsports and pride in our brand can be seen in every product we offer.

Manufacturing has always been an essential part of our business and over the last twenty years, we have created tens of thousands of products for customers all over the world. Our factory in California utilizes state of the art machinery and software that produce our industry leading products. Our products are designed, cut, bent, welded, power coated, finished and packaged all by our west coast team. This allows us to not only produce products at a rapid pace but maintain strict QC standards throughout the process.

Our engineering and product development teams share a deep passion for Motorsports and are enthusiasts in the automotive industry. We live and breathe it. With access to our own Romer arm and various 3D scanning tools, we have the keys to engineering success and the team to drive it home.

Ultimately, customer satisfaction is our top priority which is why we offer a lifetime warranty on all Innovative Mount products. We take pride in our brand and hope that customers all over the world can experience our passion for reliable, affordable and quality performance parts.

We appreciate your interest in our company and hope that you continue to support the Innovative Mounts brand as we keep creating great products!

# Innovative Bushings

**One of the most common questions is:** “What stiffness bushing should I use?”

**The answer is** “It depends on how you use the car.”

All engine mount systems are a compromise between controlling the engine movement and isolating **NVH** (*Noise, Vibration and Harshness as felt by the driver/passenger*). **Softer bushings** will do a better job at minimizing NVH at the expense of allowing more engine movement and compromising performance. Conversely, a **harder bushing** will minimize engine movement, maximize performance but increase the NVH. Ultimately the **right bushing** is the one that provides the best balance for how you intend on using the car. We offer a wide variety of choices so that you can find a solution that best meets the intended use.

**60A (Red\* Urethane)** – This is our softest bushing. Primarily intended for OEM/stock engines, daily commuting and non-aggressive driving. Available as a standard option for all our mount kits

**75A (Black\* Urethane)** – Designed for street and occasional track use. Still a daily driver, but want the increased performance and control that performance bushing offers. Depending on the individual tuning of your drivetrain, may notice a slight to mild increase in NVH over a stock/OEM mount. Good up to 500 HP. Available as a standard option for all our mount kits.

**85A (Grey\* Urethane)** – A more aggressive bushing for Race and fully built engines. Designed for maximizing performance and minimizing engine movement. Will notice significant an increase in NVH over stock. Best suited for engines ranging from 500-1000 HP. These are available as upgraded bushings with a \$10.00 upcharge.

**95A (Dark Red\* Urethane)** – Designed for extreme race and maximum horsepower and where NVH is not a consideration. These bushings are capable of handling 1,000+ HP. These are available as upgraded bushings with a \$10.00 upcharge.

**Solid Bushings** – For ultimate control and performance we offer solid bushings as an option for our Billet Mounts.

\* Custom Colors can be ordered for any bushing stiffness for an additional \$60 lot charge.

# Innovative Engine Mount Kits

Our engine mounts are produced from high-quality materials and are built to withstand the added stresses of performance applications. Available in high-strength powder coated steel or lightweight billet aluminum we offer many options for tons of applications. Add a touch of personality by taking advantage of our custom anodizing options available on all billet parts. From street car bushings to full solid race car mounts, all products are backed by our industry-leading lifetime warranty!

# Innovative Traction Bars

Our competition and traction bar kits were designed to increase the rigidity and stability of a vehicle's front suspension. Connecting the lower control arms to the chassis reduces that unwanted movement which can increase traction. Special spherical joints allow for the necessary movement without the unwanted slack caused by factory rubber bushings. Great for street cars and suitable racing, these kits can make the difference by helping you put the power to the ground. These products are manufactured with the highest precision and finished in high quality power coat for durability and corrosion resistance. They are also backed by our industry-leading lifetime warranty!

## TERMS AND CONDITIONS

The purchaser is responsible for determining the suitability and acceptability of any and all products Purchased from Innovative Mounts

## BUSINESS HOURS

Office hours are 7:00am to 3:30pm Pacific Standard Time, Monday through Friday. You can order product directly from Innovative Mounts, by calling (714) 524-5246 during office hours. You can also order product online via our secure online shopping cart at [www.innovativemounts.com](http://www.innovativemounts.com), via email at [sales@innovativemounts.com](mailto:sales@innovativemounts.com), or via fax at (714) 399-0996.

## TECH SUPPORT

Our technical staff is available from 7:00am to 3:30pm Pacific Standard Time, Monday through Friday by emailing us your information and a description of your troubleshooting issue at [tech@innovativemounts.com](mailto:tech@innovativemounts.com).

## WARRANTY / RETURNS / EXCHANGES

Innovative Mounts' products and applications are warranted for life. If a product is broken during normal use, please email pictures of the mount or application to [sales@innovativemounts.com](mailto:sales@innovativemounts.com).

We will only accept returns or exchanges from customers that have ordered directly from our business. If you did not purchase your part directly from us, we will not accept any return or exchange. If you purchased our product from an authorized distributor, please contact them directly.

Returns or exchanges will be processed if:

Proof of purchase is provided

Item(s) are in the condition it was received in and in the original packaging

The original ship date of product is within 6 months

Returns or exchanges will NOT be processed if:

The item appears to have been used or installed

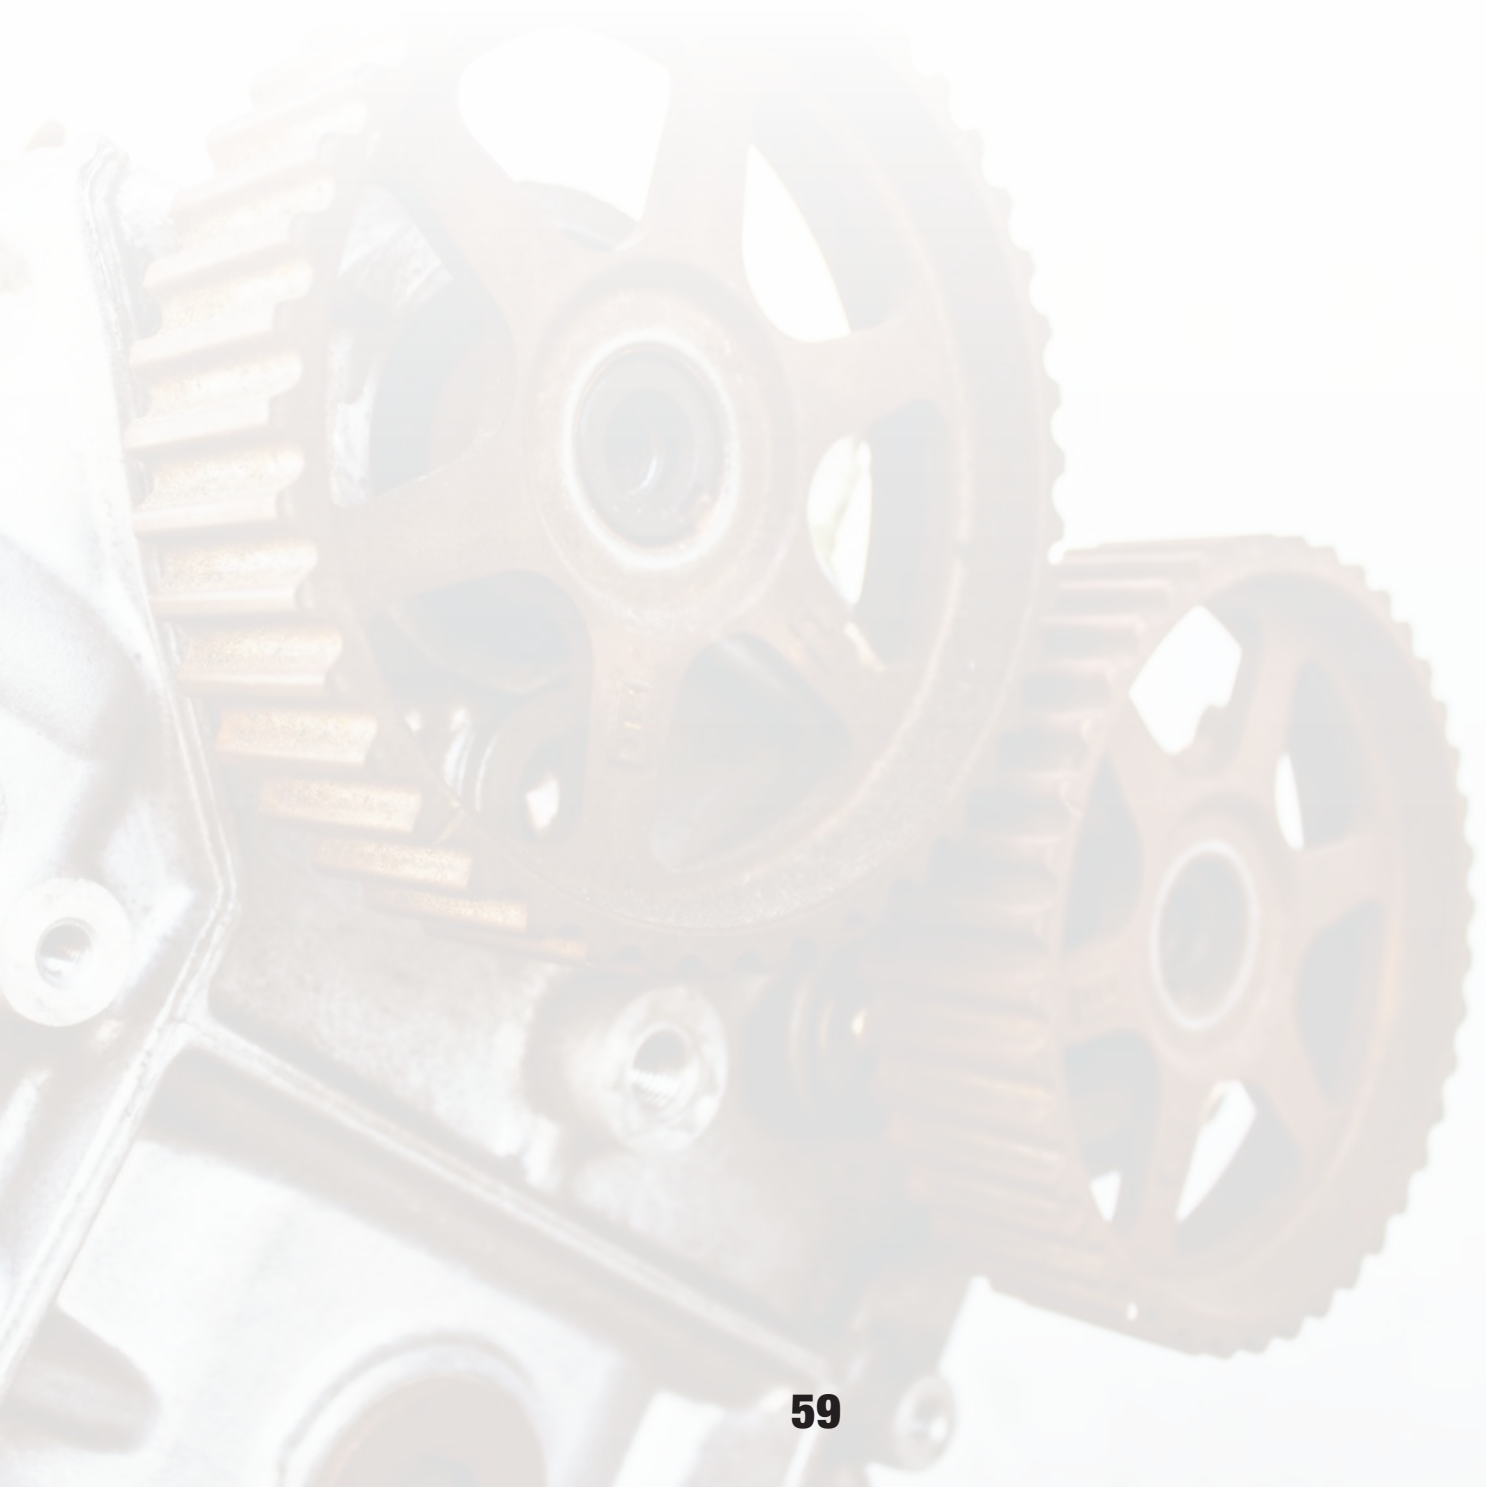

The item has been modified or altered in any way

The item was not purchased new

The item is not a genuine Innovative Mount product

## SHIPPING

In-stock parts ordered by 1pm Pacific Standard Time will ship the same day. Innovative Mounts ships all orders UPS Ground unless otherwise specified. UPS next day air, 2nd day air and 3-day select are only available on items that are in stock at the time of order. Canada, Hawaii and Alaska shipments may ship US Postal Service if requested in advance. Innovative Mounts does not ship product using other small package carriers. Any shipment that is refused without authorization will be subject to original shipping charges, return shipping charges, and a restocking fee.
