

## TRADITIONAL & FIERY PIMENTO CHEESE

A staple in a good Southerner's kitchen, this simple blend of freshly shredded cheddar mixed with pimentos and our signature spices is every food lover's secret weapon! Pimento cheese is perfect for parties. It can be served cold with a selection of vegetables or served hot as a dip. It's also our secret weapon on homemade sandwiches and burgers. *Please keep refrigerated until ready for use.*

### TO SERVE HOT

Simply melt the entire container of pimento cheese in a crock pot or a skillet in the oven at 350° F (add chorizo if you like). Serve alongside pico de gallo, queso, and tortilla chips. Find our fiery pimento cheese dip recipe on the blog or in our cookbook!
