

Product Instructions

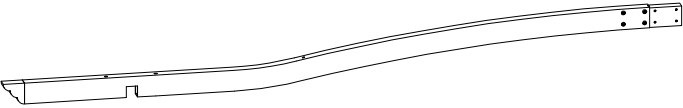

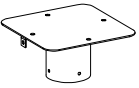

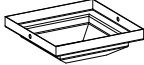

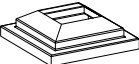

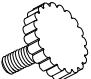

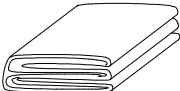

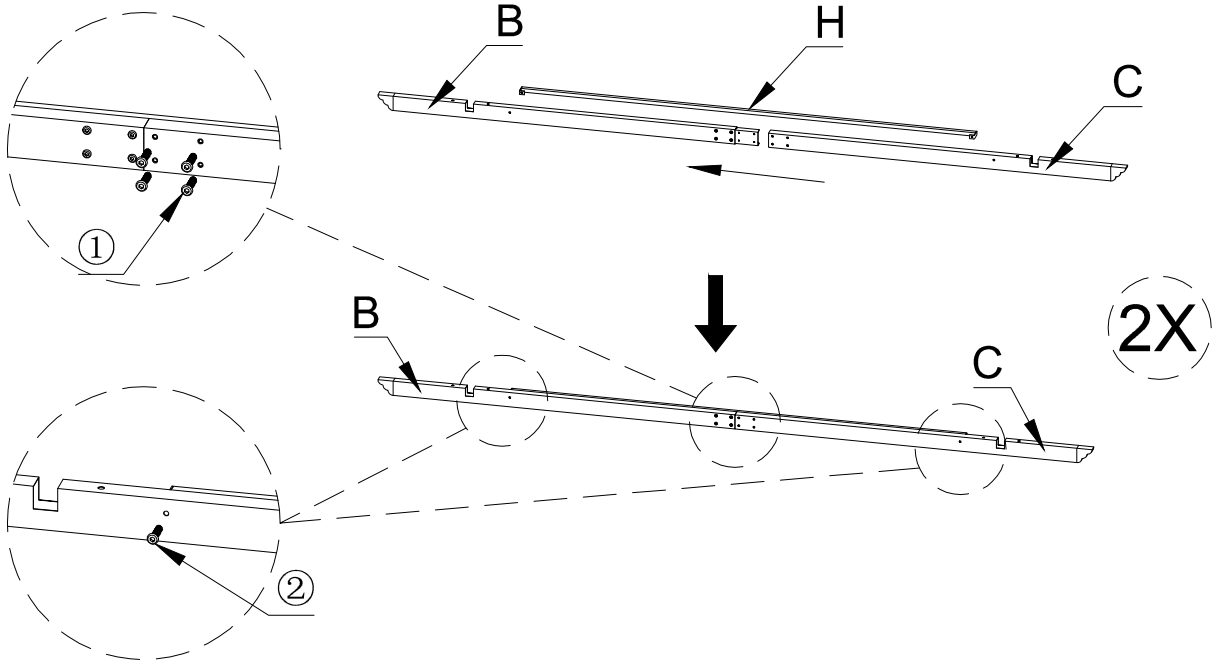

21713-15

Safety Warnings

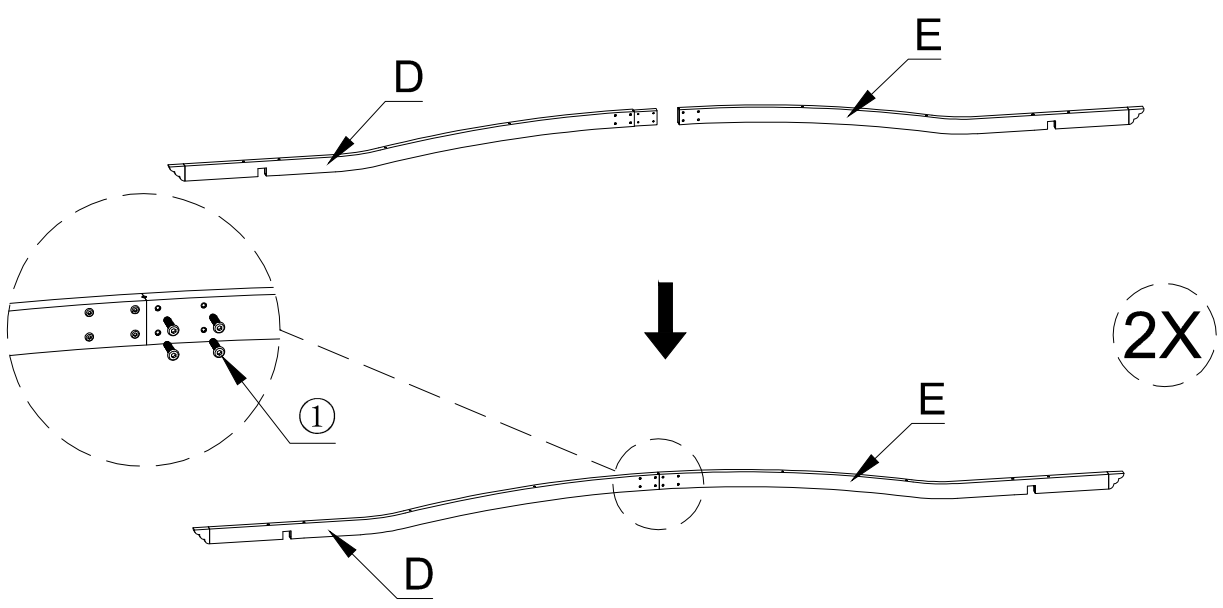

- Some sections require working overhead and lifting components. Beams can be heavy and awkward to lift into place by yourself.
- Ask others to lend a hand. We recommend having four people to help in the assembly of your pergola. Having others to help in the building process will result in an easier and faster installation.
- Use appropriate safety measures when working on ladders. Make sure any ladders you're using are sturdy and safe. Follow manufacturer safety instructions when using ladder.
- Keep a clean, uncluttered workspace.
- Your pergola is susceptible to wind. Make sure the canopy is tied and stakes are hammered down.
- In the event of adverse weather conditions, it is recommended that the canopy is removed from the frame so that no damage will occur.
- This product is designed for leisure use only and is not a shelter against adverse weather conditions.
- DO NOT stand, sit or store items on the top of the pergola.
- Do not climb upon or hang from any portion of your pergola.
- Failure to heed these recommendations may result in personal injury or in components of the pergola being damaged.
- At regular intervals inspect your pergola to make sure that assembly integrity has been maintained.
- Exercise caution using a lawn mower, edge trimmer or other yard equipment near pergola.
