

Hoistable Birthing Sling

- The Hoistable Birthing Sling is an emergency evacuation sling specifically designed for the birthing pool
- A soft mesh fabric with large holes allows for quick water drainage
- Fixed colour coded tapes along either side of the sling
- Coloured tapes are easily identifiable when immersed in water
- Each tape is labelled (Head, Hip and Leg) to ensure the sling is applied the correct way round
- The head support tapes have been specifically positioned to help angle the mother during the transfer, this ensures the head is kept lower than the feet to keep the airway clear during an emergency
- Designed to be used with a standard loop fixing spreader bar
- Manual version available
- Wash Temp 85°C/185°F
- Tumble dry low heat (max 50°C)
