

# END OF LIFE PET AID FOR VETS

## A Game Changer for Vets

As you know, **one of the hardest parts of a Vet's job is helping clients say goodbye to their much-loved pets**, and helping them cope with the loss. It's hard too, as an animal lover yourself... you feel the pain that your clients are experiencing.

The Sweet Goodbye CARE CRADLE® offers a helpful solution. As Veterinarian and Media Presenter, Dr. Katrina Warren says:

"Whether euthanasia takes place at your clinics or your clients' homes, the Sweet Goodbye CARE CRADLE® changes everything.

"It helps pet owners say farewell to their much-loved animals with dignity and respect, providing comfort during a very painful time.

Dr. Katrina Warren

### Affordable, Eco-friendly and Re-usable

The CARE CRADLE® has **been designed and tested in consultation with Vets** and other animal care professionals. It eases the emotional stress faced by both pet owners and Vet teams when it's time to say goodbye to much-loved animal friends.

This attractive and respectful alternative to plastic bags, sheets and towels, addresses the need for reliable carrying capability with

moisture management, ensuring dignity for pets and duty of care by vet staff.

The CARE CRADLE® comprises a sturdy, 100% biodegradable, premium textile 'cradle' **capable of carrying considerable weight** and an **inner, beautifully-patterned, pet wrap that keeps deceased pets snugly covered for transport to their final resting place** (whether burial or cremation). The pet wrap can be detached, washed and re-used. The CARE CRADLE® comes in various sizes **suitable for all breeds of dogs, cats and other animals**. It will be valued as a unique service offered by your practice.

The CARE CRADLE® has many benefits for both vets and pet owners emotionally and practically, including:

- **Eases the grief** of losing a pet and marks the passing with grace and dignity. Gives a sense of warmth and closure to a sad occasion.
  - **Uplifting Balinese designs** remind clients of the joy their best friends brought to their lives.
  - **Snug and secure wrap** keeps a deceased pet safe and secure during transport to its final resting place, be that burial or cremation.
  - **Eliminates plastics** - no more unsightly 'body bags', nor impersonal sheets or towels.
  - **Eco-friendly** and handmade with love from high quality, natural, 100% biodegradable materials.
- **Easy lifting and carrying** regardless of size, using the cradle's sturdy handles (for smaller pets) and strong carrying poles (for larger animals).
  - **Protection against soiling** with compostable, absorbent pads fitted within the pet wrap's built-in pocket for moisture management and reliable protection. Can be replaced after use.
  - **Suitable for burial or cremation**, but if desired, the pet wrap can be washed, then re-attached to the cradle.
  - **Neatly packaged** in a small roll, plus a convenient carry bag for poles (Large and XL sizes).

## Benefits of the Sweet Goodbye CARE CRADLE®

## A service for which your practice will be renowned

With growing trends in pet palliative care, mindful end-of-life practices and home euthanasia, the CARE CRADLE® comes highly recommended as a way to help your clients channel their grief and bid farewell to a much-loved pet. Whether that difficult goodbye takes place in your clients' homes or in your clinic, the CARE CRADLE® can help create a more peaceful and meaningful experience.

It's a unique way to help your clients come to terms with the loss of their special friends and allow the process of healing and letting go to begin. It can even **ease 'compassion fatigue'** among veterinary professionals.

**Your practice will be remembered** by clients for the way you supported them and their cherished pets, providing the utmost care, respect and dignity.
