

Position: Agricultural Operations Associate **Location:** 921 Central Ave W, Springfield TN 3717

Company: Stony Creek Colors, a chemical manufacturer based in Springfield, TN, manufactures bio-based textile dyes that improve profitability and sustainability for farmers, while empowering our customers – fashion brands and textile mills – with greater transparency. Stony Creek Colors develops and manages agricultural supply chains based on new, specialty crops like indigo to replace imported, petroleum-based synthetic textile dyes with reliable, consistent, and farmer-grown colorants.

Job Description: The mission of the agricultural operations associate is to operate and maintain agricultural equipment in accordance with company procedures, and to assist with general agricultural operations. The primary daily functions of this individual during the growing season will be field scouting, operating a combine harvester, and equipment maintenance. This individual reports directly to the agricultural operations supervisor. As this is an agricultural position, schedule will vary with season. During the harvest season, early mornings, occasional weekends, and/or overtime could be expected.

Responsibilities:

- Safely operate agricultural equipment in accordance with company procedures
- Perform daily and periodic maintenance on agricultural and support equipment
- Complete daily and periodic equipment inspections and report results
- Accurately record farming and equipment activities in provided logbooks
- Collect and document plant samples and field observations as directed
- Train agricultural operations associates on proper harvest and machine operation procedures
- Assist with greenhouse operations, facilities buildout, equipment maintenance, and other tasks as required

Requirements:

- 2+ years operating and maintaining heavy agricultural equipment
- High school diploma or equivalent
- Significant knowledge of general farming practices
- Good driving record and valid driver's license
- Reliable transportation capable of accessing fields required
- Makes safety a priority
- Able to follow directions and communicate effectively with team
- Ability to stand or sit for extended periods of time and lift 40 pounds

Preferred:

- Maintain requirements for CDL
- Experience performing successfully in a team environment
