

JOB DESCRIPTION

POSITION TITLE: DRYER PRODUCTION OPERATOR
REPORTS TO: PRODUCTION SUPERVISOR
LOCATION: HOMESTEAD - FLORIDA
STATUS: NON-EXEMPT

Company

Stony Creek Colors is the fastest growing manufacturer of natural indigo globally, serving fashion brands as well as an artisan community of dyers. We partner with leading denim mills and dyehouses to bring consistent and scalable natural colors into industrial use. Our customers are the world's leading fashion and personal care brands and their suppliers. Our next generation products will fuel clean color innovation in verticals such as cosmetics, personal care, and food.

Position Summary/Job Scope

Dry indigo biomass materials through a proprietary drying system in a safe and efficient manner in accordance with company's manufacturing standards, procedures and policies. The individual must be flexible to work extended hours during the primary harvest season. This position is a seasonal position that may lead to a permanent full-time position.

Essential Job Functions/Responsibilities:

- Manufacturing process knowledge is mainly obtained by "on-the-job training" by experienced Plant Operators and/or Production Supervisor.
- Follow established manufacturing and operating procedure.
- Operate a continuous drying production line on assigned shift.
- Ability to multi-task.
- Responsible for in-process quality control sampling and testing to ensure compliance with established quality procedures and specifications.
- Document/record all production runs operating parameters as required.
- Report to Production Supervisor any issues or concerns related to manufacturing, equipment and/or maintenance in a timely manner.
- Monitor equipment and assigned processes for performance and consistency.
- Perform standard material handling functions including loading and packaging of crop biomass.
- Provide necessary input to promote safety, teamwork and process improvements.
- Participate in production meetings.
- During the off-season, assist with factory and process expansion projects/tasks, perform equipment seasonal maintenance and other tasks as directed by Supervisor and/or Management.

Essential Attributes:

- Good listening and communication skills
- Basic math skills
- Reading comprehension, writing and organizational skills
- Ability to independently function and follow directions
- Aptitude for learning various manufacturing skills
- Shift schedule flexibility
- Ability to work under time constraints
- Teamwork skills
- Ability to stand for extended periods of time and lift 50 pounds

Education and Experience:

- Minimum a High School diploma or equivalent. An associate degree or a minimum of a 2-yr vocational training specific to industrial operations or maintenance would be preferred.
- Previous packing and/or manufacturing plant operations experience including process controls, PLC screens familiarity, etc would be preferred.
- Experience working with agriculture related processes and equipment preferred.

Date Prepared: 03/18/2019

This job description reflects management's assignment of essential functions. It does not restrict the tasks that may be assigned from time to time, nor is it considered a contract of employment overriding "at-will" employment.
