

ULTRA B10/B13 LED Lamps

Key Features & Benefits

- Long life: rated at 15,000 hours life (L₇₀)
- Available in 2500K and 2700K color temperatures
- Dimmable down to 10%*
- Reduce energy consumption by 84%
- Lasts 10 times longer than incandescent lamps
- UV and IR free
- Mercury and lead free
- Available in blunt tip
- Suitable for use in damp locations
- No warm-up time, instant-on with full light output and stable color

* Performance may vary depending on dimmer used in application. Please refer to Dimmer Compatibility List (RETRO-DIM) for a list of compatible dimmers or visit www.SYLVANIA.com/LEDretrofit

SYLVANIA ULTRA LED B10 and B13 lamps with industry leading light output are outstanding replacements for standard incandescent B10 lamps in many applications and are available with a blunt tip. These environmentally friendlier lamps use 80% less energy and last 10 times longer than incandescent B10 lamps. Offered in two color temperatures, the 2700K color temperature provides soft white incandescent light while the warmer 2500K color temperature is perfect for hospitality applications. These dimmable lamps can create the perfect mood for any setting.

Product Offering

OSRAM SYLVANIA submits most lamps for ENERGY STAR testing. Early qualification for ENERGY STAR lamps begin at 25,000 hours (L₇₅) regardless that the design of the lamp is manufactured for a greater life expectancy. As the lamps pass ENERGY STAR qualifications, manufacturers are able to increase rated life as dictated by ENERGY STAR guidelines becoming either provisionally qualified or fully qualified. Please visit EnergyStar.gov for more information about testing requirements for ENERGY STAR qualified products.

* Products to be discontinued
