

Transforming your room has never been easier.
Create a wow-factor wall with Top Trims in hours,
not days, by following these simple steps.

WHAT YOU'LL NEED

- Top Trims
- Tape measure
- Spirit level
- Hybrid Grab Adhesive
- Sealant gun

YOU MAY ALSO NEED

- SlatWall Mini or Midi panels
- Pencil
- Square tool
- Fine-toothed hand saw

GET TO KNOW YOUR TOP TRIMS

- Top Trim size: 3000mm (H) x 30mm (W) x 30mm (D)
- Top Trim coverage: 0.09m²

PLAN AHEAD

1. Remove any screws, nails or other fixtures from your wall.
2. Make sure your wall is clean, smooth and level.
3. Unbox all your packages and check the slats.
4. Decide on your layout and cut the Top Trims to size if needed.

MAKE THE CUT

1. Measure where you want to cut.
2. Mark a straight line with a square tool and pencil.
3. Cut along the line with a fine-toothed hand saw.

Important: we recommend using a fine-toothed hand saw as a jigsaw or circular saw will damage your Top Trims.

GET STUCK IN

If you're installing individually for a chunky bespoke SlatWall effect:

1. Use a tape measure, spirit level and pencil to mark your chosen placement on the wall.
Top tip: leave a minimum gap of 15mm between each Top Trim to ensure the veneer-wrapped edges are visible.
2. Apply Hybrid Grab Adhesive along the back length of your first Top Trim.
3. Position it along the line and press firmly to secure it.
4. Repeat for each Top Trim.

If you're installing as a trim to SlatWall Mini or Midi panels:

1. Cut your Top Trims to size if needed.
Top tip: if you're installing as a border to SlatWall Mini, cut at a 45° angle to give corners a seamless finish.
2. Apply Hybrid Grab Adhesive along the back length of your first Top Trim.
3. Position it at the edge of your panelling and press firmly to secure it.
4. Repeat for each Top Trim.

LAST BUT NOT LEAST

Stand back and marvel at your beautiful wall.

We're here to help with your wall transformation.
