

SKYPIPE™

ESSENTIAL OIL DIFFUSER

Important Information

Please read before operating Skypeipe™ Essential Oil Diffuser
Water temperature can warm up to 48°C during normal operation, this warmth is caused by the 2.4 million vibrations of the ultrasonic plate. When water levels are low or empty Skypeipe™ will beep 3 times and automatically turn off.

Maintenance

Never perform maintenance or clean Skypeipe™ Essential Oil Diffuser while plugged in

- Clean every 3 days of heavy use or after 5-6 uses.
- Clean ultrasonic plate using a cotton swab, do not touch with fingers. Fig 1
- Always empty the water tank away from the air outlet. Fig 2
- Empty Skypeipe™ when not in use for an extended period.

How to Clean

- Safely tip water out of the water tank. Fig 2
- Dry the inside of the water tank with a clean cloth.
- Clean ultrasonic plate using cotton swab, use light pressure to clean.
- Use mild kitchen detergent to wash your diffuser.
- Thoroughly dry before use.

Warning

- Keep away from children and pets so they do not accidentally knock it over.
- Do not turn on when water tank is empty.
- Do not turn on if water tank lid is not secure.
- Do not refill or clean while power adaptor is connected to a power outlet.
- Do not remove ceramic cover while the diffuser is on.
- Do not use chlorine, acid and enzyme type detergents to clean water tank.
- Do not block mist nozzle or the air intake at the bottom of the plastic base.
- Do not place this product near objects that may get damaged from moisture.
- Do not insert any objects in the Skypeipe™ Essential Oil Diffuser.
- Do not touch ultrasonic plate unless otherwise instructed.
- Do not fill the water tank over the Max line.

How to Use

1. Find an even surface for your diffuser.
2. Remove porcelain cover and water tank lid.
3. Pour in 100mL of clean, room temperature water.
4. We recommend 4-5 drops of essential oil per 100mL.
5. Secure the water tank lid and ceramic cover back on.
6. Plug Skypeipe™ Essential Oil Diffuser in power socket.
7. Click Vapour ON/OFF button. Fig 3

1 Click	ON Continuous vapour	2-4 hours use
2nd Click	ON Intermittent vapour	5-6 hours use
3rd Click	Turn OFF
