

MasterFile 2 for 24" x 36" Documents

High density filing system allows for quick and easy document retrieval and storage. The insulated double steel wall construction with moisture and dust seal provides excellent document protection. Individual documents are attached to self-adhesive, pre-punched carrier strips (order separately) which are hung from a set of pins and posts inside the MasterFile 2. Pins and posts are located on 6 1/2" centers for maximum support and allow multiple size filing. Carrier strips allow documents to hang straight, eliminating fingerprint smudges and dog-eared corners. Stored at a comfortable height for easy access, document retrieval is a simple process that requires no stooping or bending. Unit will hold up to 1600 3 mil individual documents. Autumn Haze with brushed aluminum handles. Includes Drawing Selector. Order Carrier Strips, Index/Out Guides and additional Drawing Selectors separately. 5 Year Warranty.
