InnoGear Aroma Diffuser User Manual

Operation
1. Lift up the cover.
2. Connect the blockaded AC adapter to the DC part at the base.
3. Add water (not exceeding the max line) and a few drops of oil into the water tank.
4. Put the cover back on, and plug the AC adapter into the power supply outlet.
5. Press the power button to turn on the light and it begins to emit light and aroma.
