InnoGear
Aromatherapy Diffuser

Operation
1. Lift up the cover.
2. Connect the Imped AC adapter to the DC port at the back.
3. Add the amount of water (not exceeding the MAX line), and a few drops of essential oil into the water tank.
4. Put the cover back on, and then plug AC adapter into the power supply socket.
5. Mist Button
   (1) 1st Press - the diffuser begins to work in the continuous mist mode.
   (2) 2nd Press - the mist button will flash twice, and the diffuser change to intermittent mist mode (15 seconds on and off).
   (3) 3rd Press - turn off the light and the mist.

Light Button
(1) Press once to turn on the light and the color will cycle through automatically.
(2) Press again to fix on specific color.
(3) Press again to turn off the light.

Precaution
- The power adapter is packed in the bottom of the packing box. Please lift up the diffuser to find it.
- To prolong the life span of the diffuser, do not use it continuously.
- Do not fill over the water limit.
- Due to the security protection, the diffuser will stop working when the water is below 1 liter or a certain level.
- Do not touch the Ultrasonic atomization plate when working.
- Unplug the unit before maintenance and cleaning regularly with damp cloth.
- Use water before use. Please add water with measuring cup.
- Keep away from direct sunlight, heat sources, and areas with high humidity.
- Always turn off the power before cleaning.
- Do not place on carpet, surface, or electric area.
- Do not use electronic equipment, such as phone and other sensitive electronics.
- Do not fill up water when in operation. Otherwise, water may enter the machine and cause malfunction.
- Please clean the product before changing to another type of essential oil according to the instructions.
- Please use only 100% essential oil with this diffuser. Low-quality oil that contains chemicals, spices, or impurities may cause malfunction.

Maintenance
- Please clean the product as follows after using full time (or 24 hours).
  - Turn off the power, unplug the power cord and remove the cover.
  - Pour out remaining water in the base from the drainage outlet.
  - Add a few drops of neutral detergent in the warm water and clean the product with a soft brush.

Accidental Leakage
- If the unit happens to be knocked over or tripped during operation, please follow the steps to make rectification:
  - Turn off the power, unplug the power cord and remove the cover.
  - Pour all remaining water in the base from the drainage outlet.
  - Clean the unit, and the water in the base must be completely drained, and oil and water may enter the machine.

FAQ
Q: Why can't find the power adapter upon receipt of this product?
A: The power adapter is packed in the bottom of the packing box. Please lift up the cover to find it.

Q: Why can't I smells anything?
A: The strength of scent from different essential oil may vary. Choose a strong-scented oil and don't put the diffuser near the air conditioner, fan or window.

Q: Can turn the light off and just use the mist?
A: Yes. There are separate buttons for the light and the mist.

Troubleshooting
- In there enough water in the tank?
  - The difference between the MAX line and the water is not enough.
  - Please add water into the water tank.

- No water or low level?
  - Please check if there is water in the water tank.

- Light is not ON?
  - Please check if the lights are not working correctly, if there is any fault with the light or the circuit system.

- Light is not flashing twice?
  - Please check if there is any fault with the light or the circuit system.

- Light is not on for a long time?
  - Please check if the lights are not working correctly.
