Troubleshooting

Cannot turn on	Is there enough water in the tank? --Please add enough water but not exceed the MAX line. Is the AC adapter connected correctly? --Please unplug, check and re-plug correctly.
No mist or low mist	No enough water or too much water? --Add the right amount of water, do not exceed the MAX line. Dust on the ultrasonic film? --Clean the product according to the maintenance. Dust on the air intake? --If the air intake is dirty, mist will not come out. Just clean it.
Water leakage	Is there crack at the bottom of the water tank? --Please check if there is any tiny crack at the bottom of diffuser which water can leak through. If you find crack upon receipt of this product, please contact us for free replacement. Is steam water inside the lid wiped out? --Wipe out steam water after each use, make sure the inner cap is completely dry before refilling in case steam water may leak out while putting lid back on. Upper lid and inner cap installed improperly? --Remove and re-install properly. Align the inner cap nozzle with the mist outlet of lid when installing. Low temperature or high humidity? --In this case, mist may condense quickly into water drops.

FAQ

- Q: Why can't I smell anything?
A: The strength of scent from different essential oils may vary. Choose a strong scent oil and don't put it near to the air conditioner, fan or windows.
- Q: Can the light be set for one specific color only?
A: Yes. Just press the LIGHT button.
- Q: Can I turn off the mist by pressing the MIST button?
A: Yes. Long press the MIST button, both light and mist will turn off.
- Q: Can I turn the light off and just use the mist?
A: Yes. There is a separate button for the light and the mist.

Attention

- Oil mist can damage wooden and painted surfaces, so wipe up any residue quickly and be careful not to drip onto the surface of the container.
- The power adapter is packed in the water tank, please lift up the diffuser cap to find it.
- To prolong the life span of the diffuser, do not use mineral water.
- Do not exceed the MAX line when filling water, no more than 200ml.
- Do not open the upper lid during working, if wanting to open, please turn off the diffuser first, otherwise the water and oil will splash and the oil will stick on the outside of the tank which may cause the upper lid hard to open in the later use.
- Due to anti-dry protection, the diffuser will shut down automatically when the water is lower than a certain level.
- There are many factors that may affect the mist, including water type, humidity, capacity, temperature and air currents.
- It's normal that the amount and intensity of the mist change during working.
- Please use 100% essential oil with this diffuser. Low quality oil that contains chemical, spice or impurities may cause malfunction.

Maintenance

Please clean the product as following after using 5-6 times (or 2-3 days):

- Turn off the power, unplug the power cord, and remove the upper lid.
- Pour out all the remaining water in the tank from the DRAIN SIDE.
- Put a few drops of neutral detergent used in kitchen into warm water and clean the product with a soft rag.
- If the unit happens to be knocked over or tipped during operation, please shake the unit to drain the water inside the mechanism and put it in a well-ventilated place for natural drying.
