7. Press twice to set a 3-hour timer.
8. Press three times to set a 6-hour timer.
9. Press four times to turn on and set an 8-hour timer.

Maintenance

Attention

- Oil mist can damage wooden and painted surfaces, so wipe up any residue quickly and be careful not to drip onto the surface of the container. 
- The power adapter is packed in the water tank, please lift up the diffuser step by step.
- To prolong the life span of the diffuser, do not use mineral water.
- Do not exceed the MAX line when filling water, no more than 200ml.
- Do not open the upper lid for cleaning. If you open the upper lid, otherwise the water and oil will splash and will drip on the outside of the tank which may cause the upper lid to stick in the open.

MIST button

First press -- turn on and set a 1-hour timer.
Second press -- turn on and set a 3-hour timer.
Third press -- set a 6-hour timer.
Fourth press -- continual working mode.
Fifth press -- turn off diffuser.

For 3 seconds -- twice and switch to low mist.
For 3 seconds -- twice and switch to strong mist.

FAQ

Q: Why isn’t it working?
A: The strength of scent from different essential oils may vary. Choose a stronger scent oil and don’t put it near to the air conditioner, fan or windows.

Q: Can the light be set for one specific color only?
A: Yes. Just press the LIGHT button.

Q: Can I turn off the mist by pressing the MIST button?
A: Yes. Long press the MIST button, both light and mist will turn off.

Q: Can I turn on the light and then turn off the mist?
A: Yes. There is a separate button for the light and the mist.

Operation

1. Lift up the cover.
2. Contact the included AC adapter to the DC port at the base.
3. Add water (no more than 200ml) and a few drops of oil into the water tank.
4. Put the cover back on, and then plug the AC adapter into the home power supply socket.
5. Press twice to turn on the light and it begins to cycle through colors.

Select the color by press per press. Long press for 2 seconds to turn off the light.

Troubleshooting

Is there crack at the bottom of the water tank?
-- Please check if there is any tiny crack at the bottom of the water tank. If you find cool touch occurs at the base of the product, please check that no free water drops exist inside the lid and unplug the power cord. If there is a rain drop on the surface of the container, it may accumulate in the base or it can form steam. If the water inside the tank is too low, turn off water outlet putting it back in.

Is the AC adapter connected correctly?
-- Please add enough water but not exceed the MAX line.

Is there enough water in the tank?
-- Please check if there is any tiny crack at the bottom of the water tank. If you find cool touch occurs at the base of the product, please check that no free water drops exist inside the lid and unplug the power cord. If there is a rain drop on the surface of the container, it may accumulate in the base or it can form steam. If the water inside the tank is too low, turn off water outlet putting it back in.

Is is unable to start?
-- Please check the circuit breaker, fuse, or if the house power is cut off.

Is the AC adapter connected correctly?
-- Please unplug, check and re-plug correctly.

Is there water leakage?
-- Wipe out steam water after each use, make sure the inner cap is completely dry before refilling in case steam water may leak out while putting it back on.

- Remove and re-install properly. Align the inner cap nozzle with the mist outlet of lid when installing.

Is steam water inside the lid wiped out?
-- Use a soft rag to wipe out the water inside the mechanism and put it in a well-ventilated place for natural drying.
