

## Specification

1. Solar Panel: 5.5V 0.8W, 17% efficiency
2. Li-ion battery: 3.7V 1200mAh
3. Switch: Turn on the light by pressing on/off switch
4. LED: 24PCS, SMD 2835, 150Lumens
5. Lighting modes: Dim + Bright  
Light stays on the dim light and comes in bright when there is motion detected.
6. Motion distance: 3-6m
7. Circuit Protection: Over charging protection, over discharging protection, over current protection, short circuit protection.
8. Advantages
  - a. Input current limited
  - b. Output current limited
  - c. Backflow current protection
  - d. High efficiency
  - e. High quality components: MURATA, PANASONIC, ST, TOSHIBA, ect.
9. Material: ABS+PS
