Aroma Diffuser

User Manual

Instruction

Please add half of the water and NO essential oil at the first use, and let it run until auto shut-off.

-  Twist upper lid to the right (counterclockwise), and lift it up.
-  Connect the included AC adapter to the DC port at the base.
-  Add water (no more than 150ml) and a few drops of essential oil into the water tank.
-  Align the inner cap nozzle with the mist outlet of lid when installing. Make sure to lock inner cap tightly with the upper lid. Loose inner cap may cause water leakage.

Aroma Diffuser

User Manual

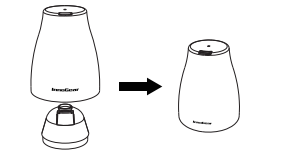

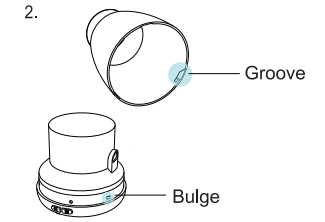

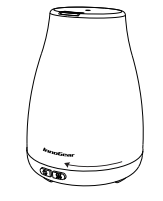

Instruction

-  Put upper lid back on, making sure to point "InnoGear" logo right above the mist and light button and align the groove inside the lid with bulge on the base. Twist to the left (clockwise) to lock the lid.
-  **MIST button**
(1) Press MIST and the LED indicator turns green. The diffuser begins to work in intermittent mist mode (30 seconds on and off).
(2) Press MIST again and red LED indicator turns red, and the diffuser changes to continuous mist mode.
(3) Hold MIST for 3 seconds to turn off the diffuser.
-  **LIGHT button**
(1) Press once to turn on the light and it will cycle through colors.
(2) The color will change per press.
(3) Hold for 3 seconds to turn off the light.

Troubleshooting

Cannot turn on	Is there enough water in the tank? --Please add enough water but do not exceed the MAX line. Is the AC adapter connected correctly? --Please unplug, check and re-plug correctly.
No mist or low mist	No enough water or too much water? --Add the right amount of water but do not exceed the MAX line. Dust on the ultrasonic film? --Clean the product according to the maintenance. Upper lid and inner cap installed improperly? --Remove and re-install properly referring to "Installation" section. Dust on the air intake? --If the air intake is dirty, mist will not come out. Just clean it.
Water leakage	Is there any crack at the bottom of the water tank? --Please check if there is any tiny crack at the bottom of the diffuser through which water can leak. If you find a crack upon receipt of this product, please contact us for a free replacement. Is steam water inside the lid wiped out? --Wipe out steam water after each use, making sure the inner cap is completely dry before refilling in case steam water may leak out when putting lid back on. Upper lid and inner cap installed improperly? --Remove and re-install properly referring to "Installation" section. Low temperature or high humidity? --In this case, mist may condense quickly into water drops.

FAQ

Q: Can't open the upper lid?
A: Please point "InnoGear" logo right above the mist and light buttons and align the groove inside the lid with the bulge on the base. Twist to the right (counter-clockwise).

Q: Diffuser bottom base melted after a few months of use?
A: Chemical essential oils are corrosive to plastic, please use 100% pure essential oils only. Contact us for a replacement/ refund.

Q: Why can't I smell anything?
A: The strength of scent from different essential oils may vary. Choose a strong scented oil and don't put the diffuser near the air conditioner, fan or window.

Q: Can the lights be set for one specific color only?
A: Yes. Just press the LIGHT button.

Q: Can I turn off the diffuser by pressing the MIST button?
A: Yes. Hold the MIST button, and both the light and mist will turn off.

Q: Can I turn the lights off and just use the mist?
A: Yes. There are separate buttons for the light and the mist.

User Manual

Precaution

- To prolong the life span of the diffuser, do not use mineral water.
- Do not exceed the MAX line when filling water.
- Do not open the upper lid during operation. Please turn off the diffuser first, otherwise the water and oil will splash and oil may stick to the outside of the tank which may make the upper lid harder to open in later use.
- It's normal that the amount and intensity of the mist change during operation.
- There are many factors that may affect the mist including: water type, humidity, capacity, temperature, and air currents.
- If diffuser runs out of water, it will shut off automatically.

Warning

- Only use 100% pure essential oil with this diffuser. Do not use low quality oil that contains chemicals, spices, or impurities.
- Do not open the cap while your diffuser is running.
- Clean your diffuser every 3 times of use.

User Manual

Maintenance

- Turn off the power, unplug the power cord, and remove the upper lid.
- Pour out all the remaining water in the tank from the DRAIN SIDE.
- Put a few drops of neutral detergent used in kitchen into warm water and clean the product with a soft rag.
- If the unit happens to be knocked over or tipped during operation, please shake the unit to drain the water inside the mechanism and put it in a well-ventilated place for natural drying.

Specification

Size	Diameter 106 × Height 147mm
Weight	About 348g
Input	AC 100-240V 50/60HZ
Output	DC 24V
Electric wire length	About 170CM
Power	About 10W
Water tank capacity	150ML
LED quantity	Three
Raw material	PP
Accessories	Power, measuring cup and user manual
Ultrasonic frequency	2.4MHZ
