- 4. Off + bright sensor mode**
Fourth pressing mode button --- the light blinks 4 times and auto lights up in full brightness when motion is detected within 5 meters, and auto turns off when no motion is detected.

Warning

1. Do not dispose of the product and batteries in fire. When the product or batteries are disposed of in fire, the heat build-up may cause explosion.
2. Do not disassemble the product by yourselves.

Note

1. For best results, charge the battery fully the first time you use the light.
2. The battery may be out of power if there is no efficient sunshine.
3. The light will blink if its battery power gets too low. Please charge it under the sun, otherwise it will turn off soon.
4. In cloudy days or in winter the charging time may be longer and the working time may be shorter, which is quite normal and should not be considered as the quality problem.

Package Included
