Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are a very sensitive person who can depend on feelings and intuition to get around in life. Possessing good common sense, you are always very practical and down-to-earth -- mothering and protective to all. Security is very important. You also love cooking, growing things, and music.

Sun in Cancer

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Trine Sun

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunction Mercury

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble

yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

You work well with those in authority who are independent and original. You could find yourself engaged in nonconformist causes, always ready to promote what is independent and innovative. You like radical approaches, and find yourself in support of whatever new-wave product or breakthrough advance is next in line. Communication, computers, electronics, and everything new-wave excites you and you excel here. You discover new ways of working with traditional materials.

Sun Sextile Uranus

Your preoccupation with your appearance, how you come across to others, and a social life in general may cut into both your job and your family life. A tendency toward surface and social graces can cost you plenty in career and home goals.

Sun Square Midheaven

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

Yours is a passionate life. Intense feelings and strong attachments make for hot times, and you are fiercely loyal, if not sometimes possessive. Secretive, you are not at all superficial but always get to the heart of things. This is good for business and politics. You have a sense for power, wealth, and passion.

Moon in Scorpio

A special affinity for old people and for children, plus an innate love of animals, the helpless, and the underdog. An inner vision coupled with the ability to see the "Big" picture often finds you working as a go-between with others.

Moon Trine Sun

Your ideas and images about the traditional (history in general) and the environment around you make it easy for you to work with and teach others. You understand and perform well with younger people and know what it takes to create a supportive environment. You handle words and tell stories with consummate skill, and others love to hear you speak or entertain. You have a touch of the Blarney Stone about you.

Moon Trine Mercury

The path or career that you take may go against tradition and thus sometimes be a lonely one. Don't expect much support from those around you. There is also some danger you could overextend, making decisions that go against your own better feelings and instincts. Career choices could be at the expense of home and surroundings. Your approach to solving problems may get you in hot water with others, resulting in frequent debates, if not out-and-out arguments.

Moon Square Jupiter

You have difficulty controlling your emotions, and this often results in flare-ups with others, especially family or those closest to you. This could cost you much-needed support and intimacy. Your tendency to get harsh, both with yourself and with those around you, may mean that you spend a lot of time alone. You have a tendency to spoil your own nest. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You sense things with the mind and understand that feelings are thoughts too. What does this or that thought mean? Where is it pointing? These are questions you ask. You use subjective rather than objective logic -- intuition and gut instinct. Poetry, music, and the arts interest you, as do psychology and the psyche.

Mercury in Cancer

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

Sun Conjunction Mercury

A great speaker or entertainer. At the very least, the gift of gab. Working with or teaching others and communicating via the mind in general are indicated. A natural storyteller, you are at home in the world of myths and dreams.

Moon Trine Mercury

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Sextile Uranus

Your love of talk, ideas, and expressing yourself to others may mean that your family and even your job may suffer. Your mind is often on your appearance, how you come across and relate to the crowd, to those around you.

Mercury Square Midheaven

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You are very friendly indeed, love to communicate and to have deep, searching conversations. You appreciate change, variety, and making local connections. You have many avenues to explore and you love research. You are not too domestic, and loyalty is not a big issue. On the move, you have many different friends and places to go.

Venus in Gemini

You love to work with younger people and would make a superb teacher or coach. You appreciate a heart-felt approach and are an enthusiast if there ever was one. You understand and encourage emotions, feelings and creativity and find it easy to work in these areas. You value drive and the ability to get things done. Matters of the heart, marriage, and the like are areas

where you can help others.

Venus Sextile Mars

You could be an excellent teacher in areas requiring discipline and organization. You value order and place a high premium on hard work and effort. You like to get down to the bare bones, to what is essential. Whatever is most practical is best, and you appreciate things that are durable and long-lasting. You love truth, philosophy, law, and the like.

Venus Trine Saturn

Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work.

Venus Trine Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are powerfully motivated, even driven, have a hot temper, and tend to be impulsive. You are seldom very reflective when it comes to doing something, but act first and ask questions later. Your more fiery emotions are always an insult away. You have blind courage and sheer guts. Aggressive. A self-starter. Energetic.

Mars in Aries

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sun Square Mars

All heart! Feelings are always out front and entirely natural. Love of action, motion (sports, physical, sex, and the like). An expert at matters of the heart. Children, animals, and all creative work get top billing. Always act on instinct, feelings.

Venus Sextile Mars

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. You are responsible to the extreme and take on obligations as though you just can't get enough. You enjoy discipline, and limitations are seen as opportunities rather than as handicaps. You would make a good teacher of others in matters of organization, practical competence, and the like. You have a great desire and drive to be thorough and responsible down to the smallest details. You always know what is essential and what is not. You love the routine.

Mars Sextile Saturn

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

The perfect manager: conservative and professional in all things. Your career is all-important. A "doer," you are always practical. Never ruled by emotions, you are cool, capable, and competent. You are quick to get the outline or skeleton of a project, to see how things work.

Jupiter in Capricorn

You may have trouble finding support for what you do (your path or career). The way to success for you seems to run counter to emotions and sentiment. You avoid activities having to do with your past environment. Your business is non-domestic.

Moon Square Jupiter

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

Jupiter Conjunction Saturn

You would do well in a career in music, poetry, psychology, philosophy -- the realms of the imagination. You work well in these areas and can help or teach others by sharing your understanding. You can serve as a guide to the nether worlds of the mind and psyche -- religions, mysticism, and so on. Spiritual problems and questions are easy, for you always grasp the unity behind what appears separate.

Jupiter Sextile Neptune

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their

own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

Jupiter Conjunction Pluto

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have an innate distrust of groups or large organizations and could tend to avoid what is new or future-oriented. You are, perhaps, too conservative and need to develop a sense of community and sharing with others. Learn to be independent. Practice impartiality and altruism. Be innovative.

Saturn in Aquarius

Your sense of organization and self-discipline may exist at the expense of your feelings. Others could feel cut off by your no-nonsense approach and may not be as supportive as you might wish. This could result in your being somewhat of a loner.

Moon Square Saturn

An innate love of truth, essentialness, even adversity. A fierce sense of loyalty for loved ones. Protective and security-minded. You have a love affair with the practical and useful; you love to work and work with love. Form follows function.

Venus Trine Saturn

Applied force. Practical competence. Tremendous discipline and a love of routine work. Ability to simplify, code, and reduce a subject to its essential elements. Inner drive to be thorough and responsible in minute details. Self-disciplined.

Mars Sextile Saturn

Your career moves are always solid, responsible, and based on sound principles. When you make a decision, it is one you can build on and take to the bank. Not frivolous, you don't get involved with superficial projects. You like solid investments.

Jupiter Conjunction Saturn

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes.

You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

Saturn Conjunction Pluto

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have new insight into home, possessions, and the whole domestic scene. Financial independence and novel ways to earn money and make a living interest you. You get away from it all with gardening, building, and family life. You discover freedom in steady, predictable growth -- like a plant growing.

Uranus in Taurus

Breakthrough flashes of insight with tremendous originality and independence are typical. A natural sense of invention and a love of all things electrical and of communication in general. A born traveler, not afraid to be alone. You go your own way.

Sun Sextile Uranus

Your independence and general unconventionality may sometimes be offensive to others. You like to go against the grain, break free, and relish the unusual and different. You may rebel against tradition, the past, history, and the like.

Moon Opposition Uranus

Sharp, nimble mind with ready wit. Quick to get insights and to see new solutions. Approaching genius when it comes to communication skills. Natural physical dexterity. Good hands too. The life of the party when it comes to spontaneity.

Mercury Sextile Uranus

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

The spiritual is seen as the ideal. Intuition, the occult, religion, and all things mystical are desired. Also music, fantasy, and all of the arts. The psyche, psychology, feelings. Also drugs, dreams, and far-out trips. Out-of-the-body. Trance.

Neptune in Pisces

Prefer the forest to the trees, the common to the uncommon or special. At home in ideas of man's essential unity. Religious and psychological ideas are natural. Will act as a minister to others, like it or not. You can sense and see the unity of life.

Jupiter Sextile Neptune

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Your ideal dream is a private one, and heaven is as close as work and family. You find social life and the outer world harsh and unimaginative.

Neptune Square Ascendant

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we

cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Tremendous practical sense and drive cut through all the red tape and exposes the right decisions every time. You may have an ability to organize and manage all that is vulnerable and sensitive in the human psyche... the public mind.

Pluto in Capricorn

Emotional stress stemming from your insistence on analysis and psychological probing at the expense of feelings -- yours and other people's. No one will support it. Your sensitivity and vulnerability often find you at odds with the group or with others.

Moon Square Pluto

Your life-course takes you straight through depth psychology, transformation, regeneration, and all that is vulnerable within us. You may function as a guide or teacher in these realms. You work with areas of the human psyche that are too hot to handle.

Jupiter Conjunction Pluto

You are most practical when it comes to psychology or vulnerable and sensitive issues. You relentlessly insist on stripping away unessentials and getting at the core of things in an attempt to be secure. Deep inner changes.

Saturn Conjunction Pluto

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

Neptune Sextile Pluto

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic

experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

You concentrate on deep, inner changes in you and in others -- depth psychology.

Saturn Conjunction Pluto 06°01'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You have difficulty controlling your emotions, and this often results in flare-ups with others, especially family or those closest to you. This could cost you much-needed support and intimacy. Your tendency to get harsh, both with yourself and with those around you, may mean that you spend a lot of time alone. You have a tendency to spoil your own nest. Your many responsibilities and obligations may keep you away from those who would offer you much-needed support.

Moon Square Saturn 00°30'

Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus 09°11'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You enjoy working with your mind, and your sharp perceptions make finding new solutions

easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Sextile Uranus 00°36'

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Dec 07, 20163rd Pass D> (Age Before Birth)

The date(s) (above) indicate the end of a very outward and perhaps successful period of years for you, during which you may have had an opportunity to establish yourself both in career and reputation. You may find yourself becoming less interested in the outer and social world and more interested in your own inner changes. There will be less of an impulse for recognition along with a growing sense of being by yourself and enjoying it. This coming time will be less outward and may call for a change of approach and perhaps life style. This is not a time of outreach, not the best point to start any great projects. Instead you may wish to consolidate what you now have, pull back a bit, and prepare for a number of years of a more inward and personal nature. This will be a time of introspection, and you may find yourself letting go of plans and projects started in a more outward phase but as yet uncompleted. You may take an interest in your own psyche, religion, and spiritual ideas. This is a time to absorb and take in new impressions and information. In summary, here is a natural breaking-point in life, a time to let go of what has been occupying you for the last years and assume a new attitude. Many people find themselves withdrawing socially and enjoying their own company. In summary: This marks a more inward period that will last 6-7 years, during which you may feel insecure and on your own. Don't expect to make great headway in the outer, social world. Bide your time and prepare for your "coming out" a few years down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You experience life mostly through your emotions and how you "feel" about someone or something. Your intuition is strong and can guide you accurately in making forecasts or decisions. Your sensitivity makes you recoil from aggressive types.

Have Water

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

Want Fire

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

Your energies run effectively toward making yourself felt in the material, tangible outer world. You are an "action" person who gains the attention of others and seems to get things moving. The circumstances of your life suggest extroversion.

Have Angular

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

Want Succedent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have an average amount of change present in life, neither too much nor very little. Specific planets, either high or low, will be presented after this (if any exist).

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

Your mind is exceptional in its clarity. All that is mental comes to you without struggle or labor -- ideas, thoughts, mental things of all kinds. The light in your eyes reveals the brightness of your mind to everyone who comes to know you.

Mercury

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Neptune

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by

jumping in with both feet and putting your thoughts into action.

Trine Type

The Key to your Personality

The key to understanding your personality and the circumstances in which you find yourself can be found in the environment or support system that surrounds you. You are very much the creature of habit and habitat, and the encircling network of friends, relationships, and what-not are crucial to your success or lack thereof. You are nourished in great measure by the atmosphere and conditions you are able to set up.

Moon

All parts of your life are touched by your sense of originality and spontaneity. Everything hangs on the innovative and original approach to things and people that marks your style. Questions of freedom and independence are absolutely essential to your life style, and you are quick to rebel when authority cramps these things.

Uranus

The Personal Hot Spot

Your responsibilities and all that determines and limits you are a prime focus for change whenever it comes around.

Saturn

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

Venus Inc Pluto

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

Venus Dis Saturn

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mars Dis Mercury

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change, transformation, and metamorphosis.

Jupiter Inc Pluto

You have much trouble organizing your thoughts, and your lack of discipline is a constant hassle to both you and others. Study and mental self-control are not your cup of tea. You can say things that are simply impractical and have trouble limiting yourself to ideas that are down-to-earth, pragmatic. Some of your ideas are just plain irresponsible. Mental hassles can be a constant headache for you.

Saturn Dis Mercury

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

Saturn Dis Venus

You are probably hard to control and very unpredictable. Your drive for independence is obvious, and it is clear that the common and the traditional are not for you. Anything else but that! You pursue alternate or nonconformist solutions to life with great energy. Your temper is hot and sharp and tends to snap out like a lightning bolt. You are aggressive in the pursuit of gaining insight into all that is new, different, and out of the ordinary. Electronics, computers, and communications could be a big part of your life.

Uranus Inc Mars

Your career is smooth until the question of personal freedom comes up. Successful career moves may demand conformity and cost you personal freedom, perhaps toning down your unconventional habits. You may have to conform and go along in order to get the right job.

This is a source of some tension, and your tendency to rebel can get you in hot water every time.
Uranus Dis Jupiter

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

Uranus Dis Saturn

The more disciplined side of you has no time for dreams, visions, and other-worldly stuff. You ignore anything that is not tied down and practical. And yet, all this spiritual stuff has a way of intruding into your real world. You come up against it again and again. You can't live with it, and you can't live without it. It seems you feel that dreams and a more "ideal" life must take a back seat to reality and the (sometimes) drudgery of routine. You keep finding yourself looking out the window.

Neptune Dis Saturn

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

Pluto Inc Mars

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Pluto Inc Uranus

When you love, you love with energy and passion. You value personal contact, cutting through all the externals and getting to the heart of things. You understand and appreciate vulnerability and have no compunction about presenting your own sensitive spots to others. You enjoy working behind the scenes, getting at secret and hidden areas of the mind and psyche. Changes and transformative experiences are where you like to be most.

Pluto Inc Venus

A career in psychology, areas of the mind and self that are vulnerable and sensitive, is indicated. You not only like change and transforming experiences, you pursue them for their own sake. You head straight for whatever challenges your sense of identity and puts you through changes. This life path could also carry you into subjects like reincarnation, psychic experiences, and all that is occult or hidden from common view. You plunge right in, dig through the whole mess, and leave not a secret unturned. Yours is a career deep in change,

transformation, and metamorphosis.

Pluto Inc Jupiter

You may have a tendency to avoid sensitive subjects and to take refuge in duties and responsibilities rather than face issues that might disturb you or put you through some changes. You are a stern pragmatist in all that is psychological -- whatever wells up from inside us. Your need for psychological security and absolute truth in all matters cuts through most chit-chat and settles on core material. You concentrate on deep, inner changes in you and in others -- depth psychology.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Your career may be built around the way you appear or present yourself -- the way you come across to others. Your spontaneous personality and ability to fascinate others are key elements in being successful.

Jupiter in First House

You are very out-front and candid, probably not known for your great sense of diplomacy or tact. Your intensity and passionate approach to life are obvious to all who meet you. You are driven to penetrate the superficial and get at the essential.

Pluto in First House

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You could be frugal when it comes to possessions, always limiting your purchases to what is essential and has value. This same theme carries through in your response to people. You don't tend to lavish affection or sentiment. You keep it short and simple.

Saturn in Second House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

A relentless drive to pursue knowledge, to search, research, and follow out leads and pointers. You are very motivated when it comes to communications of all forms -- phone, voice, letters, computers, and the like.

Mars in Third House

Your mind tends to be very imaginative and not concerned with facts and figures. Instead, ideas and writing of a mystical or poetic nature appeal. Research into religious or very idealistic subjects is indicated.

Neptune in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You are unconventional when it comes to self-expression and enjoyment. You find new and different ways to get it out -- possibly sports, the creative arts, and such. Always independent when it comes to emotions, you don't mind feeling a little different.

Uranus in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

You like to do things with care and enjoy being discriminating and exact. Your critical faculties are excellent, and you can always pick out what is worth saving and what is not. You appreciate a caring attitude and are service-oriented.

Venus in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

You love a social life -- friends and relationships play a major role in your makeup. Close bonds (marriage, yoga) are very important to you.

Sun in Seventh House

You love to communicate and discuss ideas with other people. Your ideas are always fair and impartial, especially when it comes to other people, the social scene. You are at your mental best when you are communicating with others.

Mercury in Seventh House

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Cancer is the mother of the zodiac, always making a home, protecting and providing for

others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You have a natural insight and understanding as to what the public wants. Your career gets all kinds of support from other people, and you feel at home making practical and management decisions. You look to your work for strength and encouragement.

Moon in Tenth House

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits

don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

Notes on Astrological Terms

Creating the Natal Chart

The astrological, or natal, chart is a method of mapping the space surrounding our Earth for a birth moment. A natal chart is simply a snapshot of the cosmos at the time of birth -- a cosmic portrait. We know that all things are in motion. Not only do the planets move slowly at different speeds in great elongated orbits around the Sun, but the Earth itself turns on its axis once in 24 hours. As the Earth turns during a day, each one of us is exposed to the entire 360 degrees of the zodiac. The natal chart is a diagram or picture that stops the cosmic clock and captures the universe as it exists at a particular moment.

A natal chart is your individual cosmic portrait or mandala. It is what the universe has to say about who you are and what you may become. The seeds of the future are always sown in the present, but can we read them? This is what the study of astrology is all about: reading the signs of the times and listening to what they have to say about ourselves, now and in the future. Your cosmic portrait is ready any time you are.

The Sun sign interpretations that we find in most newspapers are a far cry from the work of professional astrologers. For one, the sign the Sun was in on the day of your birth (for example Aries, Taurus, or Gemini) is only one of many factors that are looked at by professionals. In addition to the day and year of birth, most professionals use the time and place of birth as well. Birthdate, year, time and place are all needed to pinpoint your place in time and space. Given this information, an astrologer creates what is called a natal or birth chart (erroneously called a horoscope by some).

Each natal chart includes the exact position of the Sun, Moon, and the planets: Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto. These planets are then placed in a circular diagram called a chart wheel. This wheel is a miniature diagram of what the sky looked like at the moment of birth as seen from the birthplace.

The very top of the chart, or MC (Medium Coeli -- short for midheaven) is that part of the zodiac directly overhead, while the bottom of the chart, or IC (Imum Coeli, or lower heaven) is the part beneath your feet and on the other side of the Earth from you. At the extreme left-hand side of the wheel is the ascendant, or rising sign -- the part of the zodiac that is on the horizon or rising at the birth moment. Conversely, the descendant is on the right-hand side of the chart. This is the part of the zodiac that is setting. These four points, the ascendant, descendant, midheaven, and IC are very important to astrologers. They are sensitive points.

What follows is a brief introduction to some of the terms and concepts used in astrology. Reading through this material may make your Astro*Talk report more useful and understandable.

Elements and Modalities

The 12 zodiac signs have different qualities. Certain groups of signs share similar qualities. The two most popular methods for sign grouping are elements and modalities. Astrologers like to see which of the groups their natal planets fall in and add them up to produce counts, or totals. It's fun to tally up your Sun, Moon, and planets and check out your elemental and modality balance. The basic thing to keep in mind while doing this is that we become what we want (or lack) and we do what we can (or have to do). Our highest totals, which show what we can or have to do, are often not held dear. Most people are obsessed by

what they lack or want -- their lowest totals. They tend to study their wants, imitate, and even fake them. They become or turn towards what they want or lack.

Elements.

A very popular grouping of the signs is that of the four elements -- fire, earth, air, and water.

Fire Signs : Aries, Leo, Sagittarius. People with lots of fire in their chart are very active and involved and "can do" all kinds of things. Those with little fire can't get started and may need someone to light a fire under them.

Earth Signs : Taurus, Virgo, Capricorn. People with lots of earth are very practical. They can see how to do and use things. Those with little earth can't be objective, aren't grounded or practical.

Air Signs : Gemini, Libra, Aquarius. People with lots of air are analytical; they are able to resolve and draw conclusions. Those with little air have trouble with abstractions and ideas -- getting the "big picture."

Water Signs : Cancer, Scorpio, Pisces. People with lots of water are very feeling and "sense"-ative. Those with little water can't get a feel for things; they run cool.

Modalities.

Another popular way of grouping the zodiac signs is by cardinal, fixed, and mutable.

Cardinal Signs : Aries, Cancer, Libra, Capricorn. People with a heavy emphasis in cardinal signs are self-starters, doers. They initiate and get things moving. Folks with few planets in cardinal signs may have trouble getting the ball rolling.

Fixed Signs : Taurus, Leo, Scorpio, Aquarius. People with a heavy emphasis in fixed signs hang onto and preserve life. They are at the center of things and are hard to budge. Folks with few planets in fixed signs may have trouble persevering and lack stick-to-it-ive-ness.

Mutable Signs : Gemini, Virgo, Sagittarius, Pisces. People with a heavy emphasis in mutable signs are on the move and transformative. They communicate and assist things to change. Folks with few planets in mutable signs may have trouble adapting or being flexible.

Aspects

Aspects are an important part of modern astrology. As the planets move in their elongated orbits around the Sun, they form various angular relationships with one another, using the Sun (or Earth) as the center. These are called aspects. The most popular aspects result from dividing the circle by numbers like 1, 2, 3, 4, resulting in aspects such as the conjunction (0 degrees), opposition (180 degrees), trine (120 degrees), square (90 degrees), and so forth. When two planets form an aspect with one another, their energies and natures are said to combine and work in harmony or discord. For example, when two planets are exactly on opposite sides of the Sun (Earth), they are in opposition.

The most popular aspects can be divided into three main categories:

The "**emphatic**" aspects : The emphatic aspects are those that emphasize or align two planetary energies with one another.

Conjunction (0 degrees) Two planets at the same point in the zodiac are said to be in conjunction. Their natures are fused or blended into one.

Opposition (180 degrees) Two planets at opposite sides of the zodiac. The energies are in alignment with each other. They can pull together or apart, depending upon the nature of the planets involved.

The **"hard" aspects** : square (90 degrees) and semi-square (45 degrees). These represent challenge, obstacles, and substance. They provide meat and potatoes in our life. Too many can block or obstruct the life flow, yet too few can cause life to be weak or thin.

The **"soft" aspects** : trine (120 degrees) and sextile (60 degrees) The soft aspects bring ease, clarity, and vision to our lives. We can see, grasp, and understand what is happening. Too few of the soft aspects means we don't know what we are doing or what is happening in our lives, while too many soft aspects make for a life that runs cool, is overly mental, and lacking in substance.

"Exact" aspects and aspect's "orbs" Aspects between planets gradually form, become exact, and separate. When an aspect is exact, it has its greatest impact. Yet, the effect of most aspects can be felt for some time before and after the moment when it is exact. The range within which an aspect is in operation is called its "orb of influence," or simply its orb. An orb of one or two degrees of arc on either side of the exact aspect is considered a close or tight orb, while an orb of 10 degrees is loose.

Also worthy of consideration when looking at aspects are the planets involved. Aspects to the Sun and Moon (the lights) are most important, followed by the planetary aspects involving Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto. If your natal chart has an accurate birth time, then aspects to the chart angles (ascendant and midheaven) are also important. The particular combination can make a difference too. Aspects between planets such as Saturn and Mars (traditional malefics) are obviously more potentially explosive than the same aspect between Venus and Jupiter (traditional benefics).

The Planets

In astrology, the larger life of our solar system as a whole tells us something about our own personal Earth life. The interplay and relationship of the planets with one another as they circle the Sun is carefully studied. Of particular interest to astrologers are the Sun, the Moon, and the planets Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto. These are the celestial bodies used most often by modern astrologers for natal interpretation. Each of these planets represents or refers to a part of our life and self. Here are some of the concepts and key words associated with each planet:

Sun. The heart and center of it all. The father, guru, teacher or figure of authority. Anyone older or living in an experience more disciplined than our own. That which we look up to and receive light from. That which we may become.

Moon. Our surroundings, the environment out of which we came. Our past and childhood. Our formative years and self. The background. That out of which we emerged.

Mercury. Communication at light speed. Linkage. Thought. Ideas. The light of the mind. Logos, direct voice.

Venus. How we respond, appreciate, cherish or value something. The way we love. Love, but not attraction. Compassion.

Mars. Energy. What drives or moves us. Our emotions. Urge to unify or become one, therefore yoga, union, or marriage.

Jupiter. The way through or on. Continuing, continuity, succession, success. The pathfinder or lamp through the trials of time. Luck.

Saturn. The giver of laws or rules. The prince of time and the material world. Satan. Laws. Sometimes obstacles, authority.

Uranus. Insight, invention, breakthrough. Good uses for Saturn. "To see eternity in a grain of sand."

Neptune. Cherish, solve, compassion. "The dewdrop slips into the shining sea". Unity, solution, one.

Pluto. Transformation. Sensitivity to the impermanence of life. Intimations of mortality.

Lunar north node. Vocation or application point. Right-of-way.

The Lights

The Sun and Moon (or lights, as they are called) are the two most important bodies. It is sometimes easier to understand what they represent in astrology if we consider how they interrelate with the Earth.

A good analogy is the following. Each of us is on Earth. The bright and shining Sun represents someone older, someone we look up to -- whether that be a teacher or guru. The Moon represents someone younger, especially the groups that we used to belong to. That is the analogy. Here is how we might think about it:

We can't live either on the Sun or Moon. We have grown out of and beyond the younger generation (Moon). Out of it we once came or were born. This is why the Moon is said to be a mystery. It is both our parent and our child. Regardless, we no longer are alive to what moves the younger generation. The same kind of reasoning is true of those older than us, who have taken more degrees of experience. We are still too young... not yet ready to live in the solar environment. We receive light from the Sun, and it makes life grow.

We each have both a Sun and a Moon. In the course of a month, these two bodies take up various positions in relation to where we are on Earth. At the Full Moon, the Moon is beyond the orbit of the Earth (farther out) and reflecting sunlight back on us. At the New Moon, the Moon is within the Earth's orbit and lost in the Sun. Tradition suggests that we start (or may receive) an impulse at the New Moon, build and develop it for two weeks until the Full Moon, and then gradually understand or draw some conclusions from the experience during the two weeks after the moon is full.

The Planets (esoteric meaning)

The key to the planets, or the chakras: Here is a planetary key to personal natal chart interpretation that any beginning astrological student can use with confidence. The natural ordering of the planets that can be seen easily with the naked eye can serve as a key to their interpretation. As we know, the planetary order out from the Sun is Mercury, Venus, Earth, Mars, Jupiter, and Saturn. These are the naked-eye planets. Beyond Saturn are the planets Uranus, Neptune, and Pluto.

We will start with Saturn and work our way in towards the Sun. The key thought necessary in order to use these planets in your own horoscope is this: the inner planet is always the key to the outer. In every case, in order to reveal, open, and use the outer, we go within. In other words, each inner planet is the meaning and key to the planet beyond its orbit. For example, we live on Earth. The next planet inside the orbit of the Earth is Venus. Therefore, Venus will be the key to the Earth experience. If we stop and think about it, Venus (or love) has been held up as the key to life on this Earth throughout the ages. If we have obstacles and problems in our life (Saturn), then studying one's Jupiter will give us the key to the planet Saturn in our natal chart... Mars will be the key to Jupiter, and so on. Let's begin.

Saturn, or law :

Almost every astrologer wants to know where Saturn is in the chart because here we are sure to gain insight into some of the major obstacles and challenges of life. Saturn, or Satan (as it is sometimes called), is the prince of time and of the material world. We don't break nature's laws, they break us. The laws of Saturn are much feared, for it is here that we are bound to learn. The laws of Saturn are often seen as standing between us and an easy life. But Saturn also provides the walls that make homes possible. Gravity is an example -- the law that holds things in place. We come across the influence of Saturn every time we break nature's law. We are subjected and tested by these laws until such time as we learn to use them. Saturn is so important in the chart because it shows us where we must be disciplined and where we are bound to learn something; therefore, everyone always wants to know how to come to grips with Saturn in the natal chart. The key to the realm of Saturn in our chart can be found by studying our natal Jupiter.

Jupiter, or life path :

If Saturn is our life's test, then Jupiter is the key, guide, and light that sees us through the darkness of time (or Saturn). It is the straight and narrow path by which we pass through Saturn's test. Jupiter is the particular way we go or continue in life -- continuity. It is our "luck" or solution to time's test. In astrology, Jupiter is the great benefic as it shows us how to find our way through Saturn and the tests of time -- how to use Saturn. Jupiter is our key to succession through time, to success. It is the way through or on. Jupiter is the key, or antidote, to Saturn; therefore, Jupiter has to do with how we are to be successful in life in our particular battle against the forces of time (Saturn). Jupiter often describes our vocation or the way we must go through life, since that through which we have to pass (Saturn) dictates the way we must go through life (our vocation). We have mastered our Jupiter when we are a physical success.

Once we have learned to master our Saturn, to be successful, our mind is free to explore our situation. The freedom of Jupiter is eternal vigilance toward the law or rules of Saturn. We go from victory to victory over time, or Saturn, which translates into day-to-day success. We make a living.

Now that we are free within time, or Saturn, our mind begins to wonder what it all means. What's the purpose of all this? We begin to penetrate into the next chakra, that of Mars. The key to our success (Jupiter) will be the planet Mars -- how we feel about our life.

Mars, or the marriage :

Mars is the energy that moves us, the way we feel -- our emotions. It is what drives us and the way we are driven. And it is the kind of energy or drive that we have which determines our personal atmosphere or aura: the kind of room or space in which we have to live -- our living

room. The kind of room we have determines how we feel about our life, comfortable or cramped. After Jupiter fades to an easy repetition, our mind turns to thoughts of unity, oneness -- marriage.

We are driven to marriage, or yoga, of one kind or another. It is the way the two become one. Everyone chooses a form of yoga, union, or marriage... some way to join or yoke the two opposing parts of ourselves together and to perceive them as one life -- ours.

We master each planet or chakra, maintain it, and move on or penetrate into the next, inner one. The Jupiter chakra is a tremendous war between us and them. Dichotomy. When we seek to understand the secret of "us" and "them," we penetrate into the Mars chakra -- what it all means. Meaning drives us across the Earth until we can see the end of all difference, that it is all one.

We are free at last from the bonds of Saturn (Satan). We have learned what we must do to survive or to succeed in life. Yet the world we live in is not a unity. It is us against them. And still this somehow does not feel right.

Our life becomes a process of gathering meanings and hints of a possible unity between the opposing parties. This is the yoga, union, or marriage that each must negotiate. The entire Mars chakra has to do with dealing with all the motion, emotion, and meanings of life. Following them out, understanding them. Mars, therefore, is the sphere of all things meaningful, everything that moves us: music, poetry, drama, movies -- the works. Anything that gets a rise out of us. We are working with our Mars as long as we have not completed our yoga, or marriage, as long as the two have not become one. As long as we are intrigued and drawn hither and yon, we are working on our Mars. This mysterious person beckons, that piece of music or poem captures our attention, moves us.

Mars is our marriage or union. It is the systematic making friends with everything that is foreign (other than us). At some point in this journey, we get the message. We cease to be blown hither and yon by every passing emotion. We discover that life is its own meaning. We have penetrated to the Earth, or heart chakra.

Earth, or the heart :

We ourselves are the meaning. "I AM THAT I AM," and for no other reason. We take refuge in life itself with no referrals. This is it!

"I am in it to the end, and that's all, And the 'ever' it's coming to be. And in me is out, the shadow of doubt, And the 'in' that is 'out', Well, that's me!"

Earth/Sun represent the end of meaning, the heart of it all. The two are one. The marriage is consummated, the child is born. The Earth is us as we are in our oneness. The Sun is the essence of what it all means.

The planets inside the orbit of the Earth, Venus and Mercury, are very misunderstood in modern astrology. Both are beyond any physical depiction.

Venus, or compassion:

Inside Earth. Compassion. Infinite response and attention. Cherishing. How we respond to life. How we find ourselves in response to life. Love, in the sense of responding or attending to.

Mercury, or light:

Messenger truth. First out from the Sun. The light of knowing or seeing in our eyes.

Communication itself. Essence of communication.

Sun, or system:

The Sun is not a planet. The description for the Earth given above is the traditional meaning for the Sun. The true Sun is the whole solar system.

The Chartwheel and the Zodiac

The astrological wheel, or mandala, is a map of the space surrounding us at the time of our birth. The wheel is divided into twelve sections called houses -- six houses in the sky above, six beneath the Earth below. These houses are numbered counterclockwise, starting with the 1st house and the direction east, on the left-hand side of the wheel. Planets in the heavens are placed on the chart wheel in the houses that correspond to where they actually are in the sky. Of the 12 houses, astrologers find the four most important are the one directly above our heads (10th), the one under our feet (4th), the one on the left and to the east (1st), and the one on the right and to the west (7th). These four are called angular, because they mark the corners of the chart: south, north, east, and west.

Life continues after the birth moment. Astrologers watch the planets (as they continue on in the sky after a birth) move through the houses of the natal chart. Their movement is counterclockwise as they go from the upper hemisphere (houses 7-12), across the ascendant, (1st house cusp) into the lower hemisphere (houses 1-6), and on around.

In the chart wheel, the planets are placed in their zodiac positions. The zodiac stretches in a circle through all 360 degrees of the surrounding sky, and this circle is divided into sections of 30 degrees -- the familiar 12 signs. Planet positions are measured within signs by degrees, minutes, and seconds of circular arc. Each degree contains 60 minutes of arc and each minute of arc contains 60 seconds of arc. For example, I might tell you that my Moon (Moon at birth) is in the sign Taurus (2nd sign). More exactly it is in the 23rd degree of Taurus. It is actually at 23 degrees and 28 minutes of the sign Taurus.

The chart wheel is usually divided into 12 sections called houses. The houses are numbered (counterclockwise) from 1 to 12. The pie-like lines that divide one house from the next are called house cusps. For example, the cusp of the 1st house is the horizontal line on the left-hand (east) side of the wheel.

Keep in mind that our Earth makes a complete turn on its axis once in 24 hours. The chart wheel represents the space surrounding where we were born. It is as if we were standing outside with the sky above us (upper part of chart) and the Earth beneath our feet (lower hemisphere). As the Earth turns, it brings each of the 360 degrees of the zodiac overhead (or to any part of the wheel) once in 24 hours -- a new degree of the zodiac every four minutes.

As you can see, the symbols for the planets have been placed in the part of the sky (the house) in which they were at the time of your birth. For example, if you were born in the daytime, then the symbol for the Sun will be somewhere in the upper half of the wheel. If you were born at noon, the sun would be almost right overhead or at the top of the chart, while if you were born at midnight it would be at the bottom (4th house) of the chart.

The wheel is also seen as two hemispheres -- a top and a bottom. The upper part of the chart (houses 7-12) represents that part of the sky that was overhead and above the horizon at the time of our birth. It has to do with the world of thoughts, ideas, ideals, and planning. The lower hemisphere (houses 1-6) marks that part of the heavens that we have under us -- and cannot see -- below the horizon and on the other side of the Earth from us. It has to do with experiences, embodiments, incarnation, and so forth. In other word, the sky above and the Earth below.

The Wheel of Houses

The chart wheel or mandala of 12 houses can be seen as a circle, or cycle, with each house leading to the next house, and so on, in a counterclockwise direction. Let's start at the very top of the wheel, the MC and the cusp of the 10th house.

10th House. The 10th house at the peak of the chart, represents the most ideal or out-of-the-body part of the wheel. It is directly overhead, up-there, and to the south. It is the house of clear, practical vision (clairvoyance). Ideas can take their start here as planets pass through the 10th house. In the natal chart, the 10th house represents where we have our head above water and can see what to do -- clear practical vision. It is therefore associated with career, vocation, and the like. The tenth house holds a clear idea about something -- what is often called an out-of-the-body vision or experience, a time when we really get an insight in its totality.

11th House. The 11th house is a movement away from the 10th and down towards the lower hemisphere of the chart. The 11th house takes the clear idea seen in the 10th and resolves to put it to work, to keep it in mind or make it "matter." We make a commitment to carry the idea into our daily life; that is, carry it across the ascendant (1st house cusp) and into the lower part of the chart, our personal life. The 11th house has to do with plans for action, group goals, cooperation.

12th House. The 12th house is even closer to the ascendant and the sphere of action. The bright idea that we had in the 10th, and the resolve to do something about it that we made in the 11th, is coming up against the status quo of the ascendant in the 12th -- our day-to-day reality. In the 12th house we are faced with a choice. We are about to cross over from the more impersonal realm of ideas and planning into our actual day-to-day circumstances. In the 12th, we begin to face the difference between our idea and our reality. We can either forget the whole thing and let the idea go, or we can care enough about making the idea matter in our life to buckle down and accept the way things are (status quo) and try to overcome them... to bring our new idea through and get it across the ascendant.

The 1st house marks the division between the upper and lower houses, between the mind and the body. If the upper houses show what is going on in our minds, the lower houses refer to our bodies -- the experience of life.

1st House. The 1st house shows the result of what we managed to bring across from the world of ideas, plans, and commitments. It's what remains when our new idea and impulse meet our reality. It is what overflows the status quo. It is a direct indication of how much we are able to accept.

2nd House. The 2nd house is the reaction of our life and environment to whatever was new in the 1st. It has to do with how our life changes because of, or in response to, this new energy. It has to do with how we adapt to, possess, or have something.

3rd House. The 3rd house continues the drama set forth in the 1st and 2nd. The 1st is the new start, the 2nd is the new body or what is drawn forth in response to the 1st, and the 3rd is how

the situation develops to its fullness. It has to do with the working out and exploring of all the details and ramifications of what is forming.

4th House. The 4th house marks the extent to which this body develops its limits. It is also one of the angular houses and starts a new series of three. The 4th house has to do with fullness of experience -- the body or meat of it. Development has reached its physical peak and can go no further. Instead, we can feel or move within the experience.

5th House. The 5th house signals the end of the simple feeling of the experience and the beginning of consciousness of what it is that we have experienced. We are pouring forth or leaving the body. Emote, emotions. Offspring, self-consciousness, pride, and the like.

6th House. The 6th house signals the end of the vitality of the body and marks attempts to prolong, conserve, and take care of the experience or body. The experience or "party" is over.

7th House. The 7th house, another angular house, marks the beginning of a new series of three houses. Here we cross over from the personal houses to the impersonal houses. The personal experience of the first 6 houses is finished. It falls away from us and we see it as a complete stage in our development or whole. We leave the body and start into the mind. A turning away from the attempt for personal salvation toward a concern for others. Marriage.

8th House. The 8th house results from our fully grasping the nature of the completed personal experience in the first six houses... what was right about it and what was wrong. Here we strip away and can do without what was wrong. The extra baggage is unloaded.

9th House. The 9th house has to do with what remains when all extra is stripped away. It is what remains or is enduring from the entire episode. The seed essence. It becomes the light for a new idea in the 10th, where the whole cycle repeats itself.
