AW20

Many of us are aiming to make more considered choices this season.

If quality materials, sustainability and craftsmanship are as important to you as they are to us, our new Jones AW20 collection shows the ease with which contemporary style can combine with classic tailoring and modern values.

Our Goodyear Welted Collection for men and women, handmade by master leather workers is the best place to start. A crafted collection of classic shoes and boots all updated for the demands of today, they can be re-soled and repaired in the years to come, all the while moulding to your feet making them the most comfortable pair of shoes in your wardrobe.

For her, the look this season mixes up tradition, teaming trainers with sharp tailoring; boots with skirts, and chunky soles with floaty fabrics. Sumptuous leathers and high-quality workmanship set our collections apart from the mass-market.

The spotlight is on the brogue this season for men. From rugged boots to the classic derby you'll find impeccable scotch grain leather footwear punctuated with timeless detailing.

This is the season to invest in quality, reject throwaway culture, and create your own version of modern elegance with Jones.
