AW23 COLLECTION

As the leaves turn and the temperature falls, we're going back to our roots. Introducing our AW23 collection, a love letter to timeless British tailoring and classic city architecture. Think cool stone shades and deep earth tones, from soft olives and cappuccino browns to rich jewels and cool blue hues. Since our Bayswater beginnings, way back in 1857, we've put quality craftsmanship and daring design at the forefront of our footwear. Our London heritage is the heartbeat of this collection.

From the deep berry shades of dusk 'til the soft blush of dawn, we're inspired by winter wanders in the city. We've kept the sixties swingin' with a nod to mod styling rolling through our designs.

Experimenting with polished leather, squared toes, and bright block heels, we've given retro a refresh. This season we're playing with texture; croc, patent, leather, and suede, crafting pieces that resonate with both our rich past and our dynamic present. And after hours? Steal the spotlight in striking scarlet satin and polished patent brogues. This season all that glitters, comes with matching accessories. Whether it's high shine heels that mirror the city lights, or supple suede loafers every detail celebrates our commitment to our craft.
