SS21

This season Jones Bootmaker celebrates the simplicity of beautiful natural materials in a nod to rustic minimalism and a celebration of the natural world. The Spring Summer collection is matched with washed-out linens and natural floral prints to bring into focus the grounded realism of quality leather footwear. Set against the backdrop of an elegant country house the collection feels of the moment, yet steeped in leather craftsmanship tradition.

For her the collection of luxury loafers showcases embroidery and fringing to update classic silhouettes, and in sandals sumptuous quilted and braided leathers create a multi-dimensional look, with flatform styles prevailing for modern elegance. The espadrille will be a key style; bridging the gap between simple flats and occasion shoes with ease of styling and wear, where a new self-coloured heel is debuting and a flatform option showcases a happy marriage of natural materials. Completing the collection are quality leather trainers which have the ability to add instant style credentials to any outfit choice. From empowered casual suits to rustic-inspired dresses they all benefit from an uplift from a modern trainer silhouette.

For him the collection includes traditional summer styles given a premium make-over with the use of butter-soft unlined leathers to create supple uppers. Paired with espadrille soles, the casual element of the collection exudes pared-down luxury. Trainers are low-cut, streamlined and crafted from supple leathers and suedes for an easy premium look. We're anticipating a casual flow back to the office offering a choice of styles whose construction celebrates innovation alongside high style and comfort qualities.

With alluring textures, luxury materials and modern design features and silhouettes, the Jones Bootmaker SS21 collection is ready for anything.
