

Avery Dennison®

# MPI 1105 Wrapping Film with Digital Overlamine

Fleet branding, vehicle wraps, and signage

The ultimate wrapping solution, MPI 1105 brings new levels of printability and image quality on vehicle and signage applications. Combine the versatile MPI 1105 wrapping film series with either of the DOL Z Series or DOL 6460 overlaminates to ensure performance and vibrant color pop.

## Features and Benefits

- Ensure each job is completed on time with reliable, high-quality print performance across all digital platforms: latex, solvent, eco-solvent and UV.
- Eliminate wrinkles and bubbles for quick and easy installation over complex curves and deep recesses with our Easy Apply™ and Easy Apply™ RS technology.
- Increased customer satisfaction with vibrant printed graphics and colors that pop.
- Clean removability after long-term lifespan—it removes more quickly than competing products.\*
- Protect demanding outdoor applications from scratching, UV, and heat with the DOL Z series overlaminates.

## Recommended Uses

- Commercial vehicle and truck branding
- Full or partial vehicle wraps
- Boat wraps and graphics
- Signage
