

Product Description

Infinity Bond E1370 is a high performance packaging adhesive used for tray forming, and case/carton sealing. Infinity Bond E1370 is a very heat stable product with excellent clean machining properties. InfinityPACK Plus also offers excellent high and low temperature bond performance.

Physical Properties

Application Temperature	325-360°F
Viscosity @ 350°F	1200 cps
Heat Stability @ 350°F	Excellent in 96 Hours
Set Speed	Fast
Softening Point	230°F
Product Form	¼" Pellets

Benefits

- Clean machining
- Heat stable
- Good high and low temperature performance

Handling & Storage

For best results use this product within 365 days. This product is shelf stable for 3+ years.

Safety

When handling and working with hot melt adhesives wear protective clothing and eye protection at all times. To minimize the risk of flammable vapors, do not exceed 400°F melt temperature.

Clean Up

For best results, allow product to cool and manually remove excess adhesive with scraper. Consult your hot melt equipment manufacturer for proper clean-up procedures or contact your Infinity Bond representative for additional help.

FDA Status

Approved under the Federal Regulation 21 CFR 175.105 which related to incidental contact of adhesive with food.

Rotate Stock

For best results, use oldest lots first.

Toxicity

Under normal conditions of use this product is considered nontoxic. Consult the SDS for additional information.
