

UNIVERSAL APPLICATION

Suitable for left hand, right hand, single and double action doors.
No hold and 90° hold open options.
105° hold open available on special order.
Medium strength spring for 100kg doors up to 1200mm wide. Light spring for 100kg doors up to 914mm wide.

DOOR CONTROL

Two separate valve screws control the closing and latching speeds independently. The closing action starts with the door fully open and ends at 15° from the closed position. At this point the latching valve takes over, thus allowing the door to close at the desired speed.

BACKCHECK

130° backcheck prevents damage to doors in windy conditions or where the door swing is limited to 90°.

FULLY ADJUSTABLE

The FS4000 floor spring is positionally adjustable for height, width, length and diagonally within the zinc plated cement box.

SPINDLES

* Please specify the type of spindle required. 4000-NS model available without fitted spindle and will accept our range of spindle inserts.
Extended spindles available for varying height requirements.
Spindles stocked to suit a wide range of fittings from other manufacturers.

ACCESSORIES

Double action door straps, forged steel and zinc plated, for square or flat rectangular spindles.

Retractable top centre, die cast aluminium. Door part with adjustable bronze bearing complete with fixings.
Two finishes available:
