Compatibility

This mouse is compatible with Windows and MacOS.

Important Notes

- If the mouse is left unused for more than 2 minutes, it will enter into the dormancy mode. While using, just move the mouse and it will wake up.
- If the mouse is left unused for more than 5 minutes, it will enter into the deep dormancy mode. While using, just click the right or the left key on the mouse and it will wake up.

Troubleshooting

1. If the mouse starts moving slower than its normal speed, please replace its battery.
2. If the mouse is not moving smoothly and fluently, please make sure the surface while using is clear and flat.

3. After plugging the USB receiver into the USB port, wait for a few seconds to establish the connection. Make sure that the mouse is kept close to the USB port for a fast connection.
4. While using, plug in the USB receiver first, otherwise the mouse will enter into dormancy mode without a signal.

CAUTION

1. Do not use the mouse on glass or smooth surfaces.
2. Keep the receiver plugged in while in use.
3. Do not disassemble the mouse or the USB receiver.
4. Please use a dry and soft cotton cloth to clean the mouse.
