## 350SS MAX SHRINK TUNNEL

### Smaller size, same great standard.

The 350SS Max Shrink Wrapping Tunnel is specifically designed for the food industry and cool rooms. Available in stainless steel or powder coated the 350SS Max is equipped with multiple entry and exit curtains to reduce heat loss.

It has an opening of 330 mm wide x 175 or 225 mm high and can be plugged straight into a standard plug socket.

Other heights are available to match your specification.

This flexible, low cost table-top shrink wrapping machine is equipped with adjustable internal vents and digital temperature controllers. It has all the features of the larger tunnels in our range and is a great starter shrink tunnel for all those who need to pack multiple items.
