We've outdone ourselves with our new **Giftwrap 3000 Super**. An Automatic computer controlled system giving unmatched product flexibility and finish. Able to wrap up to 50 products a minute, this gift wrapping machine is an essential piece of machinery for companies looking to wrap products in a variety of different papers. Fully Automatic and complete with a magazine sheet fed, reel of paper or vertical sheet feeder mechanism options.

Built to suit your production requirements, our **Giftwrap 3000** gives products a hand-wrapped appearance for gift boxes, improving sale appeal tremendously. Its computer controlled design allows our gift wrapping machine to wrap a diverse selection of boxes sizes all in one machine with quick changeover times to minimize downtime.
