PC370 PIZZA CAPPER

Features

- Hygienic Stainless Steel Construction
- Quick Release Side Catches
- Fast Change Over
- Adjustable Temperature Controller
- 2KW Incoloy Heater
- All widths of Film useable
- (Optional) Film Dispenser & Pizza Fork

The PC370 is a simple to use pizza capper and the latest in our catering machine range. With a 2kw Incoloy heater and an adjustable heater regulator control that works with all pizza capping shrink films, the PC370 is versatile and can be easily incorporated into your current production.

Two quick-release catches allow the entire top section to be removed for cleaning after use. This also allows easy access to the heating element in the event a replacement is required.
