Cpack Packaging is proud to present the **SP7** skin packaging system, The next-generation of our popular Skin Packaging series, with our 3D design system and utilising new technology, the SP7 replaces our popular SP3 machine.

Machine Specs  
Length: 1750mm  
Width: 1050mm  
Height: 2000mm

The **SP7** Skin Packaging System is capable of wrapping several boards a minute, with an optional in-feed and out-feed table to streamline your production process. The sealing area is 765x511mm, but can be customised to the client's requirements. New features of the **SP7** include automatic magnetic locks, no vacuum pump, ergonomic control panel and improved seal integrity.
