

CPACK LTD

TECHNOLOGY IN MOTION

SOAP WRAPPING SYSTEM

- Computer Controlled
- HMI Touchscreen Interface
- Changable Product Change Parts
- Operating speeds of up to 60 Products Per Minute
- Guarded Enclosure with Window
- High-End Glue Sealing System
- Robust Design
- Provides a Heavy Duty Seal
- Powdercoated finish
- Automatic Magnetic Locks
- Capable of packaging a wide variety of differently shaped items
- Adjustable Heating Zones

Cpack's latest developments in paper overwrapping technology have resulted in the **SW4000 Soap Wrapping system**. Utilizing advanced computer control combined with servo technology, our machine provides unparalleled flexibility, adaptability and performance. Ideal for rectangular and square soaps of varying sizes and with production speeds of up to 60 products per minute, the **SW4000** represents tomorrow's technology today.

Using the latest servo technology, the **SW4000** attains production speeds and flexibility that were simply impossible only a few years ago. Each machine is customized to the client's product/products with quick-change change part tooling systems designed to accommodate a wide variety of soap shapes and sizes. Machine presets can be easily stored in the PLC memory and recalled later with the push of a button.
