Elixir Facial Mask

Vegan Collagen Booster

Glowing Beauty Duo

Our Vegan Collagen Booster was designed to give a quick jump-start to body cells encouraging them to start producing more collagen naturally.

Our Elixir Facial Mask serum encourages skin to continually naturally produce an enhanced level of collagen internally from within the cell for a long period of time.

Elixir Facial Mask is proven to boost collagen levels and keep collagen production long after use. Many face masks only take care of the surface level of dead skin. Our award winning technology penetrates deep within the skin to deliver patent-pending serum to all skin cells. Our Elixir Facial Mask leaves skin flawless and youthful.*
