

# Nano Genji

April Release

Agaro Gera, Jimma Zone, Ethiopia

Meyer Lemon // Grape Juice // Lavender

Coffees from Ethiopia's Agaro region have been blowing our minds for years. The Western woreda presents a huge diversity of profiles from deeply fruited to crisp and refreshing. This lot from new washing station Nano Genji does not disappoint with its crisp lemon-lime and ginger flavors.

**Producer:** Nano Genji Washing Station  
**Altitude:** 1900-2200 m  
**Process:** Washed  
**Cultivar:** Ethiopian Heirlooms  
**Use:** Filter

Since they've been able to separate their coffee for sale roughly ten years ago, Nano Challa cooperative has produced some of Western Ethiopia's most coveted specialty coffees. This year, the cooperative opened up a companion washing station to supplement its existing infrastructure. This new site is called Nano Genji. With the expertise of the existing coop backing the energy of a new project, we're excited to be one of the first to share their coffee.
